MONDAY MORNING, DECEMBER 13, TESTS

WYSE-1560

This special DX-Test comes from this brand new fulltimer salutes the NRC from 4 to 4:30am, EST. The program will feature country-western music, & only interference expected will be from the Cuban all-nighter, so perhaps WYSE will get out coast-to-coast! A MUST to all DXers to tune for this fine new station! Send reports to BILL MILLER, who'll DJ the program.

LEN KRUSE

WTGR-1520

Known as "The Roaring New Sound of Radio" WTGR will be conducting this special equipment test from 4:00 to 4:30. The channel should be clear of all North American stations giving WTGR a great chance to be picked up at long distances. They opened in March, 1965, and few DXers have heard them. Send your reports to Mr. Hohn H. Neal Jr., Chief Engineer, whom we thank.

LEN KRUSE

KCCT-1150

KCCT, an 11-year-old station, regularly broadcasts in Spanish, 100% of the time! Having no early-AM frequency check, few DXers have KCCT verified. They are to conduct a cycle tone test between 3:15 & 3:45am, C.S.T., and would like to hear from DXers everywhere. 1150 is fairly open at this time, so everybody, try to hear them! Reports to John G. Hall, C.E. L.K.

Hi. What happens when I need a station badly? I sleep right through a Special, hi. That's exactly what happened on MM 11/15 with much-needed KBRV-540. I hardly did any other listening this week either. Veries: v/1- KSIB KGCL. DX: 11/20- WMSJ-1480 5:27 pm s/off. WFUL-1270 5:45pm s/off. UnID s/off 6:14pm on 1580 u/KFDF s/off. The unID had a singing SSB. UnID s/off on 1590 6:15pm w/some kind of ditty & the SSB. UnID s/off on 1530 6:45pm w/SSB u/WCKY. Has to be either unn KCLR or needed KRYT. I need help on that one. KYND-1580 good to 7:30pm s/off, after which KDAY was in until 7:44:30pm s/off. That's the third time I've gotten KYND & KDAY this season already. 11/21- WCMB-1460 2am s/off. WTMB-1460-TEST 2:46am, easy. I did not hear WКСN-1340. Later on, WCRT-1260 5:35pm. UnID s/off on 1290 6pm w/SSB, probably unn KUOA. WLUX-1550 6:15pm s/off. UnID s/off on 1590 again at 6:15, think it was KDEX (Gee, that'd be a great name for a DX publication, eh Dave Bennett? Hi!) I disagree w/those who want the 24-hour clock system. Now just think about it. Don't you really convert the 24-hour system back into local time when you see it? You don't think, "Well, I have to get so-and-so on 1580 at 1800"; you look at the 1800 and mentally convert it to 6:00pm. At least I do, & unless you were born into the 24-hour clock system & use it as your regular system, you do too. It's just natural for one to change an unfamiliar system of measurement into the system that is used for ordinary & everyday use. So why change the present system into a 24-hour system when we just change it back again mentally? It's just an unnecessary middle step, as I see it. 73s.

My first Musing in a long while. CX poor here at time of writing. Last three days more static than in July & August. Veries in from Rheinsender-1016, nice card & program sked. Also airmail in from Timisoara I-755 w/scenic QSL, sked, info on diploma you get if you send 12 reports in a three-month period. Last, but best, excellent v/c from Bamako, Mali, 60kw. for reception 9/21-23 on 1416 kc/s. from 12:53am to 1:32 fade out. Very specific- gives frequency, power, date & time & sked. Said was having trouble w/bad crystal, but got new one in & now on 1428 kc/s. I heard him 11/23 1:10am on 1428, much tougher than 1416, & lots of splatter from 1430. In answer to my question, said fadeout at approximately 1:30 EST was sunrise in Bamako. Message was in EE, handwritten & signed by R.M. Language used at 1:15-1:30 during NX was FF as I reported. Becnar-548 coming in nicely 5-7pm s/off, western mx 5:30-6 w/NX at 6 & Arabic mx after NX, chanting @ 6:50 nightly till s/off. No sign of the German. The RNE stations have erratic s/of fs & some are AN but not always. Madrid-989 s/of f nightly now 8pm & s/on again @ 1am. Valencia-773 very strong MMs in the clear (WABCOff) @ s/on 1am w/chimes & clock striking 7, followed by mx, pop. Stays in w/good signal till after 3am. New strong SS heard for o/a week now on 1223, OC on daily about 1:30-35 w/IS beginning @ 1:45 (12-15 musical notes repeated), s/on 1:50 w/woman announcer till 2, then man & woman in what seems to be a language lesson daily, who? Much talk & little mx till fade : 2:50, seems to be in the 10-20kw power range, not an RNE outlet. Also another new SS on 1475 coming on daily @ 2am & masking Vienna at times. After 2:30 Vienna drops out & this fellow easier to copy. Lots of talk too. Of course EFE14-1097 is coming in nightly till 10:02pm s/off. Note to Nelson: Beirut-836 logged here 11/5 6:01-6:34pm s/off which agrees w/you on that date. Tirana-1358 10:30-11pm nightly w/foreign service, then s/off & returns at 11:30 (short IS of nine musical notes repeated) S/on home service w/woman announcer @ 11:33-34pm has man giving exercises till 11:40 when mx, Albanian folk w/much singing. I noted Leipzig-1322 good 11/23 @ 1:20, but to my amazement (P.4)

(C. Burnham) he signed off & left the air @ 1:30. I have info that Enugu, Nigeria's new 250kw. XR left Continentals Factory in Texas in September. It will be three tower directional on 953 kc/s. Also Gates Radio, Quincy, shipped out in June to Addis Ababa, Ethiopia one 100kw. & two 50kw. MW XRs. I'll close now with this remark: It's the quality of your report & not the quantity that brings in the return varies. 73. (This Musing caused by your remark about no reports from Connecticut, hi.

Roger Winsor - 7001 West Stanley - Berwyn, Illinois - 60403

Many stations heard, few verified. That seems to be what the trouble is. Veries received this week are WFKN v/l, CJET nice hand-written v/l mentioning 10kw instead of 1 kw & giant CM, & WRAC, Racine, Wis. v/pc thanking for the report. Totals now 282 verified, 2,013 logged. DX is as follows: 11/8- WHCU noted on ETs w/5kw. XR, really bombing WWL. 11/9- WS00-1230 r/c u/the jumble & WJOB nulled out, log taken. 11/10- WPMB-1500 noted s/off @ 5:45. 11/13- WMJ ET loud & easy, a surprise as lately almost everything barely heard due to ANs, WEAQ-790 w/FB game @ 4:30 w/a few local ads, report sent. WTOP @ 5:10 ending CBS NX w/WX following & then fade, WRSL-1520 5:30 s/off for another log. 11/14- WKAT/WKMI AN after WSAI s/off @ 2:30, CFCN-1060 & an SS, KYW off, who's the SS? I had a rare privilege of tuning an HQ-180 this date also, & noted many stations easier to hear than on this RX, but he had a terrible image of WLS all the way to 1020 kc/s. I did hear hets on 1465 & 1465, also BHBS easy, YND-615 easy SS, & others. (YND is 615, Rog, & YND is 675 -ERC) Allied has an HQ-120 or something like that for \$115 used, but wife says no. Congrats to the CPC, sure wish the stations I write to would even say no, but they say nothing. Maybe I need a better form letter. I sure hope CBK is off so KBRV comes in. Good DX to all.

Frank Merrill Jr. - 10693 Saline-Milan Road - Milan, Michigan - 48160

Hello Earth People. Latest DX is as follows, all times listed except for WHLL-1600 are AM: 11/1- CJSS-1220 12:03. 11/8- KRKD/KDEF-1150 3:00. 11/9- WJPG-1440 7:15 (heard on our Buick's car radio, my 11th RX). 11/13- WHLL-1600 5:12pm (heard on one of my transistor radios, my 12th RX). 11/15- KAMI-1580 (Cozai, Neb.) ET/M 1-1:30 & on, KBOI-950 2:00 u/KPRC/KIMN/KJR; WGNE-1480 ET/M 2:37, CKOK-800 3:00; KRLC-1350 3:01 s/off @ WSLR; KFIV-1360 end f/c-TT 3:15 u/WSAI, KISN-910 breaking through many times at starting 3:26; KBRC-1430 3:52. Best Western U.S. skip over noted by me (no Hawaii or Alaska, though). w/KRLC possibly being my best domestic catch to date outside of Hawaii. Reports sent to many of the stations heard 11/15, hope they verify. Veries: WDAY-970 KOYN-910 KWIZ-1480 KRKD-1150, all v/l's except KRKD, v/q. F/up report sent to WJAR-920; if veried I'll have all my 49 states veried, so I hope they come through this time. This may be beyond the score of BCB, but does anyone have the calls of Chicago FM on 97.9 (sounds like WSDN, but report returned); of Philadelphia TV on Ch. 26? Also, can anyone give me any suggestions on good but inexpensive VHF & UHF antennas? We're getting a new antenna setup in several weeks & want to buy the correct antenna for DX. Does anyone

have v/s for WROK-1440, WKNT-1520, WJTN-1240 or WMCW-1490? Correspondents Eggert, Little, Plunkett, Warner, Bens, Tilbrook, Edmunds, please write. Does anyone have an Indianapolis Times? I have KFQD-730, 2WL-1430 4AY-260 & other SCs for trade; totals 604. That's it for now; happy turkey-plucking & happy DXing to all. 73s.

DX has been slow for me, mainly because of lack of time. On top of going to school, I put in between 25-32 hours of work each week. Since my last Musing "I've heard the following: 8/21- WAGC (where are they located?) w/a test, then WLIJ, Shelbyville, Tenn. 1580 on for ET (thanks to NRC f/c list). 8/23- WWUN-1590 Jackson, Miss. s/off 1:05am EST w/song "America." They operate 5,000w. day & 1,000w. night directional. KFDA-1440 Amarillo, Tex. 1:30-1:45 test, WFUN-790 Miami s/off 2am. 2:17-2:32, WTHB-1550 on for a test. 8/24- WIMC-1290 Ocala, Fla. s/off 12:25am (s/on is 6am w/5,000w. day & 1,000w. night). Then a whole month went by w/no DX at all. 9/30- At 11:55pm WDOD-1310 s/off w/SSB (s/on is 5am). 10/1- WBSC w/"Night Hawk Show" at midnight. Then a few nights later I heard WWIL-1580 Ft. Lauderdale (semi-local) s/off @ 11:58. Address is 1580 N. Davie Rd. 10/30- WTOC s/off @ 12:15 w/Taps. I heard a rather new station about four weeks ago, WYSE-1560, Inverness, Fla. I think they s/on @ 6am. Can someone tell me more about them? I also heard WDLR s/on @ 5:30 (strictly c/w mx). I've only had one verie come in since my last Musing, that being WCAO-600 Baltimore for a 10/19/64 (that's right - 1964) report, the v/s of which I couldn't read. He apologized for the delay. That's about it from this corner. A big HI to Bill Bens in Cincy. I know I owe you a letter & I'll try to have it in the mail by 11/23. Good DX to everyone & 73s.

Saul Ash - 910 Meehan Avenue - Far Rockaway, New York - 11691

Hi there from the Land of Power Failures. WQXR was off but I couldn't get a thing on 1560. DX: 10/30- KCMO-810 @ 6:29pm. 10/31- XENA-540 @ 7:42 bombing in as usual (I could never get an ID from them before). 11/2- WPIT-730 @ 5pm s/off, WPIK-730 @ 5:01 pm s/off. 11/4- WHAK-960 @ 4:59 s/off. 11/6- WLIK-1270 @ 5:32 s/off, WBEN-930 @ 10pm u/WPAT. I think that it's a crime WPAT is allowed to stay on at night. There is so much stuff u/them, & at times WBEN is almost even w/them. So instead of being a day-timer, they are NSP. What's the FCC coming to? Radio Belize-834 @ 10:30 after WNYC s/off. 11/7- WCOV-1170 @ 5:30pm u/WWVA; WMOO-1550 @ 6pm s/off w."America the Beautiful", WJW-850 @ 7:30pm. 11/8- WFNC-940 @ 5:02pm w/Pee-Wee Reese Sports Show. Are they 5jw or 10kw? 11/10- CHSJ-1150 @ 3:31pm, WTTT-1430 @ 4:14pm (I nulled out WNJR w/my portable radio), WETS-810 @ 5:25pm; WMC-790 @ 5:34pm. During the blackout, the DJs should have played "Eve of Destruction", hi. Allen Nissen - I don't think WNBC was using 5w. because they were coming in on my portable like they always do w/50kw. Speaking of blackouts, the power was off in certain sections of Queens today, 11/22. This is the third time in about two months this has happened. Con Ed, how about getting on the ball, hi. V/1- WIST. v/q- CJMS. 73s.

Tom Donahue - 8 Bainbridge Avenue - Melville, New York - 11749

There now, we are just about back to normal. That was some blackout! It knocked out all NYC stations for a few minutes. After about a half hour most were back on except for a few w/XRs in NYC proper like WEVD & WQXR. They were knocked off completely. WMCA was first with auxiliary power & the others soon followed. WNBC & WABC were very weak for a while until more power was built up. WGLI-1290 on w/5kw. & louder than daytime signal. They are 1kw. at night normally. WKBW & WBZ noted extremely weak, probably less power. Now DX: 11/14- WMTS-810 5:30pm. 11/15- MM- HJED-820 2am. WKLO-1080 3am. CBK-540 3:05. CMCY-550 3:25. CFRA-580 3:30am. CJCH-920 3:40. KIMN-950 4:05 s/off, WBAX-1240 plucked out of the traxh including local WGBB @ 4:45am. WBAX made my 300th station as I slid into bed that morning. Good feeling, hi! 11/21- WLSH-1410 8:30am. 11/22-MM- a very noisy morning, static-wise. WSLT-820 in 20 over @ 3:20 on their TEST. WCOP-1150 at 3am preventing anything from KPLS. No KMER due to WPEN who decided to test 4:05 to 4:29 right after KIMN s/off. One ID of CKBB-950 DX after WPEN threw off their carrier. That's it for the wee hours. WEXT-1550 at 1pm that afternoon. WDBJ-960 @ 8:30 Monday night. No KBRV 11/15, only WDAK/CBK. No veries in. Reports out to CJCH KIMN WMTS HJED WSLT. I hope to be at Ernie's get-together 11/27, transportation providing, of course. 73s, C U in 7. (Thanks for pix, Tom! -ERC)

Jeff Ross - 125-12 Cronston Avenue - Rockaway Park 94, New York

Greetings! Due to a slight mistake of mine, my last Musing was the same as the one before it. Down to DX: 11/11- WPDH-750. 11/13- WETC-540. 11/16- WYLO-540, WWPF-1260. 11/18- WMNA-730 WBSC-1550 WFBG-1290. 11/19- WLOR-730. 11/20- WAPA-680. 11/21- WMBL-740. Veries: WIOC WETC WIOD Radio Belize. During Thanksgiving, I hope to get up one or two nights, & maybe log a few goodies. A few nights ago I returned my Navy RX & to my amazement the sensitivity & selectivity improved tremendously. I can now get some of the split frequency stuff like Radio Belize, & Barbados w/absolutely no trouble at any time. Has anybody gotten KFH KXL or KOLT verified? As the VJ Log is not out yet, I have to depend upon White's Log, & more veries I get, the more inaccurate it is. For example, when I received WETC-540, it was listed as 250w. day. Their letter mentioned they use 5kw! That completely shattered my thoughts of it being a very good catch. Thanks to Dick Cooper for sending along my membership card etc. I hope to attend the "clambake" on 11/27, & meet you fellow NRCers. That's all for now so 73 till next weel

Robert Bruhns - 26 Cedar Valley Lane - Huntington, New York - 11743

Well fans, I did it again. I slept through MM 11/22. I don't even remember turning off the alarm clock. Rats! DX: 11/21- WTMB-TEST Tomah, Wis. in nicely 3:10-3:30am. I didn't try for WKSN-DX as I wanted to get as much of WTMB as possible reported. Next, 11/21, 7:20pm, looping out CBL Toronto, I got Radio Nacional Espana in nicely at S-8. It was in again 11/22 from 6pm on. It appears to be the AN hat heard here previously. That makes but three TAs here, but I'll keep the number on the rise now. Re the IDXID report on YND-674 (sic), they are NOR Radio Managua, but they are still Union Radio, Managua. I heard (Union) Radio, Managua & misunderstood. I'm sorry if it caused confusion to anyone. Al Nissen: Are you sure WNBC was running 5w. during the blackout? They were in here much lower than usual, but I don't think they were THAT much lower. Totals now 150/29. Poor, huh? Six reports out. 73.

#7. Hello. Recent DX: 11/18- WWIT-970 s/off 5:31pm, WLIW-920 5:34. WRMF-730 s/off 5:45. BBC-1088 mutilating WBAL-1090 @ 6:21pm. 11/19- SS on 1220 @ 2am ever so slightly hettin' XEB & sounded like some kind of a sports event, ideas? KVVY-1470 r/c 1:55am WLEB-1100 5:05pm, WMTS-810 s/off 5:44. 11/20- WKJR-1520 r/c 12:15am u/WKEW but easily readable. WLIJ-1580 r/c 1:12. WAVA-780 finally got their harmonic off 1560 so WSMD is in the clear all day long here now. WMBS-590 4:49pm, WHOW-1520 5:31 u/o WKEW. UnID SS on 1135 @ 5:47pm? EE u/WRVA-1140 @ 5:51 & sure would like to know who it is. WCFL-1000 noted off @ 5:55pm w/a weak EE in there which may have been WBNB. They came back @ 6pm but w/reduced power I think. TA on 755 w/cl mx @ 6:17pm? TA on 1061 @ 6:25??. 11/21- KGLO-1300 r/c 1am, WTMB-1460 TEST easily heard @ 3am. No dice w/WKSN-1340 DX due to WOOK but a TT was heard in there. WOSC-1300 ET/M 3:32, WCUE-1150 4:05. No WKWS-1290, that was WFBG w/the TT. That EE on 1140 again @ 4:25pm & I'm 99% sure it's WSIV. I got a good log, so report is off. WIDS-1180 4:32pm. Two EEs u/WWVA-1170 4:57 pm & I bet WLBH was one of them. Who SSB-1530 @ 5:45? MM 11/22- Lots of QRN. RTF-836 12:37am, Sottens-764 12:40 (country #46), WTON-1240 r/c 12:45, Poland-1502 1:16 (country #47). I found out later that WILD-1090 had an ET @ 1:30, rats. CBC LPRT on 1370 @ 1:39 but dunno which one. BBC-647 2:37, WAME-1260 f/c 2:47. WSLT-1520 TEST in like a local @ 3:10 & I think they kept on going till their s/on. WTAB-1370 ET/M 3:14. WFBA-1460 DX didn't s/on until 4:00 but they had a pretty good signal. None of the Specials on 950 was heard; too much WPEN. WIVV-1300 s/on in EE w/SSB 4:28, WCDL-1440 r/c 4:45, WMOG-1490 4:54, WALG-1590 4:56, WNOO-1260 4:58, WJJJ-1260 s/on 4:59, WTJH-1260 s/on 5:02, WPHG-980 s/on 5:13. Is the c/w mx station on 1000 @ 5:15 CKEW? 11/23- Hungary-1187 5:12pm (country #48), WCNT-1210 5:27pm. A letter received from the new WLMD-900 reads in part, "It gives me a great deal of pleasure to advise that yours is the first reception report received by WLMD. Accordingly, we intend to have your letter framed & it will be given a 'place of honor' in our transmitter room." Pretty good, huh? Now up to 951 stations, after 88 days.

Well, I am in the process of putting together a Knight R-100A RX & a Knight T-150A XR. It seems like it is going to take forever & a day. As you can see, I want to have my own amateur radio station. I would appreciate hearing from any ham in the NRC who would be willing to give me some tips concerning the setup of equipment & the most important of all passing the examination in Baltimore. Most of my spare time then has been spent in constructing the R-100A; therefore DX has been hurt. I have, however, tuned in for brief spells on the MW to see what could be heard. Only WAPA-680, San Juan, P.R. 00905 was of any count. Veries have been dribbling in now & then. They are from the following: WYOU-1550, Tampa Fla. 33601 (Box 1988); WTIG-990 Massillon, O. 44646 (box 573). WTIG also included a 24-page booklet "WTIG, Dial 990, Dominant Radio Voice in Massillon & Western Stark County." This booklet has the history, programming, policy, etc. of WTIG. WLAN-1390 Lancaster, Pa. 17003 (202 North Queen St.); WABC-770 New York 10023 (1926 Broadway); WABQ-1540 Cleveland O. 44114 (2323 Chester Ave.); WENZ-1450 Highland Springs, Va. 23075 (111 N. 4 St., Richmond Va. 23219); WKAP-1320 Allentown, Pa. 18105 (postmarked Lehigh Valley, Pa.); WTKN-1220 Franklin, Ky. 42134 (103 N. High St.); WCAZ-990 Carthage, Ill. 62321 (Marine Trust Bldg.); WABZ-1010 Albemarle, N.C. 28001 (Box 226); WMLJ-1300 Lancaster, N.Y. 14986 (5360 William St.); WICO-1320 Salisbury, Md. 2180 (127 E. Carroll St.); WVCH-740, Chester, Pa. 19013 (Wolf Bldg.); WYRE-810, Annapolis, Md. 21400 (Truxton Heights); WEMD-1460 Easton, Md. 21601 (Point Rd.) & WCTR-1530, Chestertown, Md. 21620. As you can see, I'm trying to clean up on Maryland. I only need veries from WQMR WETT WKIK WLMD WSMD WXLN & WMEW to complete the state. I have reports out to WETT & WKIK. I also sent several reports to WQMR, but they just don't seem to answer. Can anyone be of any help w/WQMR? Also when are WSMD WXLN & WMEW going to go on the air? It seems like 12/3 is to be the big moving day for WKYR. They'll no longer be in Keyser, W.Va. They are going fulltime in Cumberland, Md. I understand the move had been in the making for nearly two years, but WTBO & WCUM were bucking it. I was so sorry to learn of Ray Edge's death. Our Club has indeed lost a great leader. I believe that if it had not been for him, our NRC would not be what it is today - the BEST in the WEST w/the North, East & South included.

Allen Nissen - Fort Lee, New Jersey

My info about WNBC-660 (5w. on 11/9) came from the so-called reliable N.Y. Times of 11/10. WNBC was operating w/5,000w. during most of the time (they may have been 10,000w. for a time). Don't blame me - blame the newspapers. Thanks.

Bob Karchevski - 58 Preston Street - Apt. 5 - Wakefield, Massachusetts - 01880

11/21. Hi gang! Thanksgiving vacation allows time for a Musing & my first question is: What happened to Hockey Night in Canada? Last two Saturdays CBM CBL CBF CRA & CBT were not carrying NHL games. WLS-890 is broadcasting the name & address of an American girl who would like pen-pals: Sue Turner, Apartado Aereo 1386, Barranquilla, Colombia. Anyone having difficulty w/a station in Barranquilla may need a pen-pal. John Callarman: Suriname government establishes new BCB station 1kw, soon 50kw. Poptronics, Dec. SW report. DX from 11/21 backwards: 11/21- WTMB-1460 TEST 3-3:17am. I could hear TT in 1340 mess, not sure if WKSX DX. WGLI-1290 at 4:30, no sign of WKWS ET. 11/20- WRFD-880 u/WCBS @ 5pm. 11/19- PJB-800 like local at 9:30pm (gave time as 10pm). 11/15 - Logged WEEI-590 for verie. I tried for KERV-540 TEST but only CBK there. 11/13- I heard a few IDs from WWSJ-1300 ET but unlogable. At this point I'd like to express my appreciation of the special postcard Dick Cooper sent to the members. It arrived Friday in time for all the TESTs listed. Great work Dick! Veries from WEEI, WFKN-DX. No veries yet from WFIF-1500, WINE-940. 11/22, no KPLS TEST as WCOP on RS. No WSLT-1520 TEST due to WKW ET. I heard WNAB-1450 at 3:32am but not enough for log. No sign of KENO-1460 f/c on clear channel @ 3:36am. No sign of WFBA-1460-DX, just static. No KMER/CKBB-950 DXes as only OC, (WIBX?) (WPEN, Bob -ERC) Totals for weekend: nine DXes, one heard. Today I received a v/l from KRPT-1220-TEST. Remember that one? Sent tentative at time of TEST, no f/ups. 11/25- Re-logged WGAN & WHYN-560 (semi-local). 11/26- I logged WGSN-740 at SSS @ 4:45pm s/off.

Henry T. Tyndall Jr. Box 111 - Shelburne, Vermont - 05482

Milestones: Verie #6,600, Country #164. Riga, Latvia finally sent two fine letters. The last 25 veries were all f/ups & half of them were PPs. In 42 years I have never seen such a hassle to obtain a reply. The stations couldn't care less when the DX report comes in & it is very evident they get a huge percentage of worthless mail. I guess I retired at the right time, because I became 65 on 11/19, just a step behind Ralphie. After waiting five weeks, our Chevelle Malibu station wagon arrived, & on my birthday, too! We hope to leave for Florida on 11/23. I could not find a trailer we liked to we'll buy one when we get there. I expect to makeup for my lack of golf this Summer & get rested up a bit, it was a hectic year. More news, I now own what is left of the EKKO Company. Being the only active collector, I might need a few more stamps, so I have what is left, plus the simple device for stamping the clla. Instituted in 1924 by Mr. Webster, they hoped to get every station in U.S.A. & Canada interested in confirming reception w/these stamps. The Philidius stamp exchange started up in N.R.C. & caused many to give up collecting. However, it was doomed for failure as more stations became really commercial, no modern radio station would bother w/such a thing today. When the printed calls ran out, they printed, or stamped, the calls on, according to the order & as time went on, fewer fans were interested. The duties were turned over to J.C.Hobbs, Highland Park, Ill. after the last war & now I have the remainder of these stamps. No more will be printed. Unfortunately I have o/500 Canadian blanks & wish there were that many of the U.S.A. blanks. Only a few colors left also. No more purple, dark green, orange, brown, yellow, or gold. Anyhow, they held out for o/40 years. I now have 6,600 stamps in four big loose-leaf albums, all backed by verifications. These are in 38 files & weigh 200 lbs. gross & 178 lbs. of cards & letters. Every stamp was a dime but who knows what it cost for the verie? I do not, nor do I know how many hours of sleep I lost nor hours of writing but I do know it was a particularly fascinating hobby in the early days & I have no regrets. Many wonderful friendships were made throughout the years. We will be roaming around Fla. this winter so it will be difficult to reach us. I wish all the the NRC officers & members a Merry Christmas I a Happy & Prosperous New Year, & please do not send cards, as they may not be forwarded. Good DXing & God Bless you all.

Andy Rugg - 16 Lake Breeze - Pointe Elaire, Quebec

I finally got some veries: KNWS-1090-TEST KXRA-1490 WFKN-1220-TEST. DX here has been worsened by some obnoxious QRN which I believe to be caused by a fluorescent light in the neighbourhood; it really inundates the BCB when it gets going & made copy on WFBA's DX very difficult. DX: 11/21- WTMB-1460 TEST 3-3:10; WKSX-1340-DX sputtered weakly 3:25-2:29 w/only TT & one W ID audible. 11/22- WSLT-1520 TEST 3:10-3:20, WFBA-1460 DX from 4:09 SSB s/on to 4:17 QSB u/that hideous QRN. While DX here is presently limited, I will get a lot in during a month-long Christmas vacation. Preliminary work on Montreal-'86 will also be undertaken then. Jacques Dube of Trois Rivières & Jim Warner of Toronto will definitely be there - will you? 73.

Donald K. Kaskey - 6131 Stockton Boulevard - Apt. 61 - Sacramento, California

Greetings to all my old friends & to the many new ones I hope to make. It's a pleasure to be back DXing again. RX is only an eight transistor portable (Flata) w/a 10' antenna running E/W. I hope to get a better set next year. DX has been good at times. Of course I have many new stations to get, though. 11/21 reception was tremendous from N & W from SSS on. Some of the better catches here have been: 10/26- KCHJ-1010 through nearby 10kV. KSAY @ 4:59pm, KLD-960 Ore. u/KABL @ 9:05pm, WLCY-1380 Fla. @ 5:29am. 10/27- KBLE-1050 Was. o/KOFY @ 9:28 s/off. 10/28- KALF-1510 Ariz. @ 8:36pm u/KTIM. 10/29- CJIB-940 B.C. to 4am s/off, CKOK-800 B.C. to 4am s/off; CKLB-1350 Ont. @ 5:03am, CHQR-810 Alta. I don't know if any other WC members noticed it, but the westernmost reporter in the 11/20 issue was in Omaha, Neb.! A record of sorts? The TPs aren't nearly as regular here in November as they were the first three weeks of October. 11/25 AM was good, but I overslept my 7:30am alarm (slept until 9:30) hence no DX. I did note Peking-1020 w/ KDKA @ 3:10, Pyongyang-655 is in by 2:30 most evenings. 540 is wide open Thursday AMs w/CBK off, & 720 is clear Tuesday AMs for KUAL. On the TA front, I've heard only Dakar-764 & Parede-1034 so far. TVI is too heavy. It's on until 4:30am SM & MM. My TA goals this year are the supers on 746 782 818 836 1043 1088 1196 & 1205. Domestic DX: 11/8- WPAL-730 s/on @ 7am u/XEX OC, JOCK ID, & Peking ID. Nice tape there! 11/16- WDAF-610 ID @ 6:10am. 11/20- KIZZ-1150 r/c @ 2:09 ID, also TTs on 590 & 1010. KCSJ listed, dunno who on 1010. 11/22- KRKD-1150 off @ 3:02am, had hopes for KPLS, only KAYO, doubt if KPLS was on. Ditto KMER, only JOKR on 950. I didn't hear KERV the week before on 540, either. 1460 lost 11/22 in the West by a tester, KENO or KTYM; I didn't wait for an ID. UnID s/on 960 @ 5:03, WH--? 11/25- WCFL-1000 surprisingly strong @ 3:32am. Total heard since 11/30/62 is up to 908, 44 countries, 43 states. Out of my new logs since 9/1, 31 of 39 have been foreign, 22 from the Far East. Hey! Achtung! Everyone watch for the CHOAX-1605 (Baffin Bay, NWT) Special DX, OK? Supposed to be on during the next eclipse of the sun in Kabul, Afghanistan to get maximum trans-polar skip to all their fans in that area. My first CPC effort! Reports go to Box 1, Baker, Cal. If you can't hear them on BCB, try their SW outlet. That's enough. 73.

Paul H. Henning - Box 133 - Hartford, Wisconsin - 53027

CX are fairly good here. My goal is to get to the 200 stations-logged mark by the end of this season. DX (underlined are verified): 9/19- WJPG-1440 @ 6:56-7:11am; WBEL-1380 @ 7:19-7:32. 9/26- KXOK-630 @ 3:39-3:42am; WKBW-1520 @ 4:17-4:23; WKBN-570 @ 4:30-4:41; WWSW-970 @ 4:55-5:02am. 10/16- KSTP-1500 @ 12:06-12:18am. 10/24- WPTR-1540 @ 1:13-1:25am; WIL-1430 @ 1:30-1:35; KOIL-1290 @ 1:41-1:53am. 11/3- WHO-1040 @ 19-10:15pm; WRVA-1140 @ 10:18-10:35. WISM-1480 @ 11:18-11:26pm. Totals: 131/98 stations, 24/23 states, Adios & 73.

11/27- I missed last week's deadline. More info for MM 11/8: KGBS-1020 L.A. heard for a newie @ 4:45am w/fair/good signals; Radio Montserrat-885 Plymouth, Leeward Is. heard from 5:10-5:20am when WCBS or WRED's OC knocked them off completely. ID @ 5:15am. 11/15- First TA: BBC-1214 heard @ 12:56am & three other BBCs after that: two BBCers on 881 (one atop the other) @ 1:35am; 1457 kc/s. @ 1:44, & 1295 at 1:56am. All heard well, 881 kc/s. especially. Also 11/15: VOA-1196 Germany in fairly @ 1:04am; Senegal-764 at 1:23am; RTF-1205 France @ 1:50am. Twenty-three countries heard on BCB. Too bad, none of the new TAs could be reported to. 11/20: WHEB-750 Portsmouth, N.H. @ 5:28pm. State logged #44 for KFJR-550 Bismarck, N.D. @ 1:03am on 11/26. Veries: Radio Barbados-785 air letter; v/1; WOW (returned postage!), WIXI f/c. v/q- WNEW. Reports out: KWMT WPGC KVOO WKER KFJZ WSAO WLEE WKYC WTMJ. I don't like these new "All-NX" type of stations. I will be getting a new car for graduation (to go to work in, & college) this May & I hope to be visiting local members. I may hourney again to Kittanning to look more carefully at Mr. Cooper's veries. I may stop in Pittsburgh to see the many fine members there. My dad says Pittsburgh is the darndest city for traffic! Anyone who wants to correspond, please write. I swap SWL cards 100%. By the way, the new car will be a 1966 Corvair Monza coupe. Best 73s to all.

Although I've been a member for some time, this is my first Musings. I've DXed about 2.5 years now. Totals are 370/700, states, 50/50, provinces 9/8. Latest DX: 11/15- CJET 6:45am, 11/16- WLCY-1380 5:07am, WAOK 5:14. 11/21- CKCK 3:56am. 11/22- WSLT TEST in well, WTCR s/on 5:37am. Also heard a station on 1420 kc/s. 4:58am to 5:30am 11/22 w/c.w mx & commercials like Air Force recruiting, Peace Corps, etc. Any ideas? My DX may not seem too impressive but I've been very busy lately. It seems whenever I'm not in school I'm working. Veries of late: WFAA WHEC WSAY WOKO KYW KAPT WTCW WHBT & WHVR. That's about it for now - I'll try to report more now if DX picks up. 73. (Welcome to Musings & NRC, J.C., & we all hope you will report often! -ERC)

Don Eggert - 1925 East Bowman - South Bend, Indiana - 46613

11/27. Hi guys. I'm starting to get back in the groove. Here's the latest DX: 11/22-MM- I got up about midnight, but CX seemed really poor, so I retired @ 3am w/only one logging, WLCX-1490 @ 1:05am s/off. 11/26- O woke up accidentally about 5am & caught WITN-930 @ 5:02 s/on SSB, & WWOD-1390 s/on SSB @ 5:17 o/WFEL w/WNUS nowhere in sight. 11/27- WMSR-1320 @ 1:15 TT/ET, CX really good that night w/TT all over the dial, but I couldn't seem to catch any IDs. I heard unkn CKCK-620 after WTMJ's s/off at 2am. One report out, WMSR. Total logged now at 648, & veries - 71%. Oh yea, I tried for the WFKY-1490 Pop on 1125 but heard nothing. Guess that's all this time. 73 & DX.

Dave Whatmough - 284 Main Street West - Hamilton, Ontario

Not having too much luck w/Western DX TESTS so far. I missed both KBRV-540 & KDKO-1510 I have up on KDKO after about 15 minutes - guess I should have listened longer. (Randy Kane - your weak station on 950 11/1 was KIMN Denver - I had it for my first time also) 11/8, I heard WBY-1230 s/on. 11/15 proved to be an interesting morning. KENO-1460 my first from Nevada @ 2am, KDON-1460 @ about 2:15. KOIL-1290 coming in like a local. At about 3:20 on 1150, BBC Stagshaw I think, program on England's exports, EE accents. CKDA-1220 @ 3am, my first from B.C. 11/15- 10:30-11pm Montego Bay-700. I sent report to them. 785 kc/s, EE s/on 11pm w/GSQ. Is this Barbados? WAPE-690 noted @ 5:18pm. 11/21- WTB-1460 Tomah, good signal. WKSX-1340 TT heard faintly u/WLAV. 11/22- WSLT-1520 TEST, good signal. No trace of KMER-950. On 1460 @ 4:15 I heard LA mx w/female announcer. Was this WFBA - couldn't hear any ID. WJBO-1150 heard s/on @ 1:05am, report sent. KSDN-930 @ 1a, On 11/15 @ 3:35am on 1200, heard SS w/ticking sound. A few more unIDs - SS on 1020 & 1080. EE on 1000 u/WCFL w/rr, WIVI maybe. Veries slow coming in; KGLC WOW KFJZ & WISM. 73s & good DX.

Tom Mamm - 1805 East Elmdale Court - Apt. 6 - Milwaukee, Wisconsin - 53211

New stations heard: One on 11/22, KWQE-1550 in Fargo, N.D. @ 5pm ID & rr mx. Signal was clear, then QSE - faded out. On 11/21 I heard WKAZ-250 someplace in Mich. @ 6pm to 6:25 w/rr, signal loud & clear. To Hal Robie: You & I have the same make tape recorder Wollensak 1220 w/four tracks. I do not tapespond so don't send any tapes. Write me when you get a chance, Hal. All times EWT. 73.

I wanted KMER & WFBA very much too. CFAC-960 @ 3:45, WNDR-1260 4:32, WNOO-1260 s/on 4:37, WJJJ-1260 s/on 5am, WBAL-1090 o/KAAY 6:55. I got an HA-230 on 11/13, thus the great increase in DX. In all respects it is better than my old Philco RX except for the images. I am using a 50' longwire NE/SE & when I used it on my HA-230, there were images on most of the higher frequencies. The ones that really bother me are the ones from 1550-1600. Here, KSO & KRNT are the only ones around. WHO is a bother higher up (like 1150). Solutions, anyone? Some foreigners caught, book in back. Veries: v/q- KCRG WNBC CFCN KOB KSL KFEQ KNWS-TEST. v/l- WFKN TEST KAMI. 73s & good DX.

Hi fellow NRCers. I missed the deadline last week so I had to report this week. DX has been fairly good w/these 25 added: 11/12- WPEO-1020 @ 5:40pm. 11/13- WDXR-1560 @ 2am s/off, WWUN-1590 @ 2am s/on w/"America", KFI-640 @ 3am s/off, then back on again, KHOW-630 @ 3:09am, CKEY-590 @ 3:30, CKPR-580 @ 3:35, WMOC-1450 4:20, WBOW-1230 4:32am, WCLS-1580 5am, & WRTH-590 @ 3:30am. 11/15- WDSM-710 @ 5:17am & KLCN-910 @ 5:45pm. 11/20- WKAZ-950 @ 2:30am, KSJB-600 3am (first from N.D.), KLTF-960 @ 3:20am. 11/21- WXMT-730 @ 5:30pm & WVOK-690 @ 5:45. 11/22- KIMN-950 @ 3am trying for KMER TEST, WSLT-1520 TEST @ 3:45am (first from N.J.), WFBL-1390 @ 3:50am, WGUS-1380 4:02 s/on, WLTC-1370 @ 4:05am, CKBB-950 at 4:34am covered by semi-dielectric (any ideas, who?), & WVON-1450 @ 3:25am. Veries received are KRID KBOX KNWS & WTAR (only three weeks). Totals- 233/107 Rising slowly but they are rising. Glad to see a long list of TESTs. Good work, CPC. I hope everyone had a good Thanksgiving. 73 & good DX. C U in 7.

Hello to all CPC watchers (is that like bird watching?) Via Chris Maslen, WMMJ got 24 reports w/Len Kruse & Bob Gorsuch being the farthest to my knowledge. And to Len, a big Thank You for the CP list, very welcome here, hi! To Jim Neff who has decided to take up DXing again. Verie, CFQM-1310. DX is as follows: SM 11/21- WKSX-1340 DX in very badly but after one whole half hour, an ID made it through the QRM, WOOK & WLAV noted AN this morning, 11/22. WSLT-1520 TEST in very well w/some WKBW. UnID-1460 female DJ, & older records similar to Ben Dangerfield's unID of 11/20 Muse. Does anyone know who this is? I got almost a solid half hour copy, but no IDs, as much QRM. 11/24- SSS, @ 6pm, clear ID, WCOA-1370 good catch, but not enough info. Country #13, Radio St. Pierre-1375 but too much slop for a report. 11/25- WSIZ-1380 w/ET-M asking for c alls, so I called collect, & they took it. Personnel at stations said they would verie, but Ralphie says different. I forgot this last time - WSOQ-1220 on ET, copied for 15 minutes & report sent. Russ Edmunds, will verie come? I'm keeping my fingers crossed for MM 11/29. As of 11/27, CHFI-1540 still, and no verie from KBFA-1480. Also, no other DXes were noted. 73s & best of the DX. (What's date/time for WKOP-DX?) AS THEY SAY IN GAINESVILLE, FLA., "WGGG." "WE'RE GOING GREAT GUNS!"

David Gnauck - 444 Old Hook Road - Westwood, New Jersey - 07675

Thought for the day: If every NRC member was to write to a mere 15 stations for the CPC in a few hours we could cover every U.S. station. The present 28 members is all right but we need more. Veries this week include WHBG & WDEF (v/q); WSWW w/a form, KAPT of all things (where were they when I needed them for the Contest last July?) WTTS & KTDL on report. S.W. (yeah, I mean you, Steve Weinstein) would you mind listing your totals some time & could you or anybody else give me some info as to what happens on MMs on 630 (ANs, s/off, etc.) beside Cuba, KXOK & CKRC. Who else can be heard here? Sat. 11/13 brought WGMs, Washington D.C. u/WMCA (local) using the loop, 11:47, toll 11/14-Midnight s/off w/SSB; WMMJ-1300 was on PoP 12:20-3:15 noted 100% readable even w/WERE/KOME, Okla. noted AN but no report taken. KJEF-1290 r/c La. 1:32-1:45:15 s/off w/TT 80%. Next was MM 11/15. BBC-642 (90) using loop 1:06-1:28:50 w/NX, etc.; BBC-1088 (80) w/NX, etc., 2:06-2:26. I happened to be on 1370 at 2:30 when who should throw on their OC & have an ET w/mx out WLOP, Ga., reported to 2:45. In the meanwhile I logged the r/c of KXEO-1340 2:40-2:55 s/off w/TT & also an ET from WROD-1340 Fla. (100) for ID on OC?? test @ 2:45:50. I'm quite sure KNRV-540 didn't make it but I still haven't conclusively checked the tape, as of so far, not heard. WRIT-1340 Wis. (75) w/r/c-TT 3:15-3:30 then into RS-rr. Quite happy to note John Henry mx on 730 @ 3:48 & have an ID @ 4:07 from KPCN-730 Tex. on ET-M, TT, OC. WNOO-1260, Tenn. (70) @ 4:30 s/cn-SSB to 4:32 w/NN programming. WKMF-1470 Mich. RS w/pop mx 4:44-4:55 (85), WKSC-1300 S.C. for first report 5am s/on w.Dixie to 5:02 w/c/w? as well as WSYD, N.C. s/on 500w. w/SSB & umm WCKI s/on 5:01 w/SSB. WLNC-1300, N.C. (40) at times 5:30-5:59 on RS. On 11/17, Wed. AM, WKAZ-950 AN-RS-rr (95) 2:01-2:15 from W.Va. very strong. I then decided to let the tape go & get needed KOME a report but then WMTN-1300 Tenn. came on at 2:20 to run an f/c-TT w/a blasting signal. They were needed so there was no real loss. More on this next week but this AM SM 11/21 KGLO & WKYK on r/c & WTMB-1460 Wis. on TEST killing the frequency 1340 also w/TT, WKSX on for DX. CU in 7.

Well, I haven't been represented in these pages for a couple of weeks so about time for a Musing. Sorry I couldn't make it to Ernie's for the get-together on 11/27, I had my leave cancelled at the last minute by the good old Post Office. I hope everyone there had an enjoyable time. Well, DX has been pretty good so here goes. 11/8- WKLZ-1470 heard at 12:35am r/c. WCAZ-990 also on r/c @ 1:20. KDON-1460 o/KENO @ 2:30. 11/13- WMMJ-1300 in very well w/PoP @ 1:04am. WLOP-1370 w/ET @ 2:45 on 11/15. Brand new WLMD-900 Laurel, Md. in well all day w/ET. 11/21- WKSX-1340 tough w/local WOOK on but did manage one ID @ 3:10. 11/23- WKAP-1320 on w/c/w mx. WMAX-1480 in well on ET @ 2:36. WCHB-1440 on top @ 3am. WSIG-790 Mt. Jackson, Va. heard at 12:30pm. WIOO-1000 logged again at 2:05, didn't answer first report. 11/24- WRGM-1540 heard at 2:40 w/ET, think KXEL off. WRPL-1540 in at s/off 5:45pm. KLTR-1580 Blackwell, Okla. in briefly @ 6:17pm before KPIK took over the frequency. WDKD-1310 heard very well w/f/c @ 1:30. Veries: v/q- CJCB CFON WJBK Sofia-827. v/l- CJLX KFVR WFKN KAPT WCAZ WKLZ WLMD KWIZ KYND. v/f- WMMJ. I am real pleased to see the number of Special programs. The members of the CPC are doing a fine job & it looks like this is going to be a fine year. Enough for now.

Ed Drumm - Connecticut

Well I'm finally checking in after an absence of almost two years I believe. I've finally got back to the DX kick after about a year away from it. Ernie you mentioned no reports from N.Y. Conn. & Mass., so here I am. All DX was recorded on 11/23. WFIG-1290 Sumter, S.C. heard testing @ 12:29am; heard a weak ID in the background. WHIO-1290, Dayton, O. @ 12:30am, very weak ID way in the background. WOHO-1470 Toledo @ 1:15am w/a pretty good signal. CKCY-920 Sault Ste. Marie Ont. in @ 1:20am w/a good clear ID, dominated the frequency w/rr. Lastly picked up WSOC-930 Charlotte, N.C. w/a good signal controlling the frequency @ 1:30am. Well, that's about all for this time, I hope to have more in the future, & Ernie, you're still doing a great job, we all appreciate

Bill Caldwell - 15 Ashland Avenue - Springfield, Massachusetts - 01119

DX this week: 11/23- WBLD-750 4:40 to s/off @ 4:45pm. 4:59, WAAZ, WRIC-540. 11/25- Noon, heard what apparently was elusive WFGM-960 w/ET but no positive ID. 4:k5, who had c/w u/KYW? 4:20 WMID quite strong on 1340 signals are often readable here even in mid-evening. 11/27- 1:47am, WIOD-610 w/Frank Sinatra special o/u WIP, Question: Is the BBCer on 690 early AMs w/mx parallel to EE CBL CBF? Received a "magnidialer" from WRRG along w/printed note thanking me for asking for it - I didn't. I wrote to them last August to report N.J. reception while they were still testing XR. Never received veries. 73s & good DX to all.

David Shapiro - V. S. D. B. - Staunton, Virginia - 24401

I read about your Radio Club in the November issue of Electronics Illustrated & it said your Club was the only BCB one in this country. I also found the address in the World Radio TV Handbook. Let me tell you about myself. My name is David Shapiro & I go to school for the blind here in Staunton, Va. I am really interested in BCB DXing & I have a G.E. Gloestar ten transistor radio & it can pick up anything. Also I write to a number of radio stations on the BCB & collect general info, program logs, QSL cards, & CMEs from them. I have written to almost 30 of them so far. This year I have stations verified in Puerto Rico & Virgin Islands. If you want me to I would like to send the Club some nearby QSL cards & program logs from some stations in Virginia. I can read any kind of print, large or small. We do not have a radio club at school or in town. Give me some advice on getting a v/q from CMQ in Havana. I want to get one from that country, but I don't know SS & I don't know if the U.S. allows letters be sent to Cuba. I would appreciate it very much. Also I would like to obtain v/q's from the Dominican Republic & can anyone tell me what BCB stations can read EE & issue them? Here are the addresses of Staunton's two stations if you are interested. WTON, W. Beverley St., Staunton Va. 24401. WAFC, Springhill Rd., Staunton 24401. Thank you very much for your time & I am waiting for a reply. I am 20 years old.

Fifteen new loggings so far this week, w/MM still to go. DX: 11/18- WCDL-1440 Carbon-dale, Pa. 3:53pm, WRIV-1390 Riverhead LI @ 4:13, CKVM-710 Ville-Marie, Que. FF @ 6:47 pm. 11/19- CJBR-900 Rimouski, Que. FF @ 5:07pm. Long-sought WICU-1330 Erie, Pa. at 10:30pm, WTRX-1330 Flint, Mich. @ 10:41, WJAS-1320 Pittsburgh @ 11. 11/20- WPEP-1570 Taunton, Mass. @ 4:30pm, CKOC-1150 Hamilton @ 5:09, CHGB-1310 Ste. Anne, Que. FF @ 9pm. SM 11/21- Rainy WX but two DXes heard: WTMB-1460 @ 3am good signal on clear channel. A few minutes before WTMB TEST started, I heard s/ff of unID, w/fulltime power of 5,000w, KDON? Also logged WKSX-1340 Special @ 3:21, WKMI-1360 Kalamazoo @ 3:38, CFNB-550 Fredericton @ 4:16 w/c/w, & finally WGLI-1290 Babylon, L.I. @ 4:32am. No sign of WKWS TT. Four veries this week: WKMC v/f, says sked is 5:30am-SSS. WLTC v/1 & CM (non-DA). I was quite surprised they run only 68 watts pre-sunrise, when I heard them. KEUO v/c w/ literature about their station. WCRV v/1 & CM (non-DA). Card back from KIMA saying it was not they I heard on this channel, so must have been KENO. I'm looking forward to the many DXes tonight, however none looks real simple. I only wish there weren't four on at the same time. Short Thanksgiving Vacation starts Tuesday, & I'll be taking my RX home to see how DX is down in SW Conn. DX MM 11/22- WSLT-1520 @ 3:10am w/TT, CJCB-1270 strong @ 3:31, KIMN-950 Denver @ 3:57, WFBA-1460 maybe @ 4:10, & WPON-1460 Pontiac Mich. a/on @ 4:31. Many DXes not heard: WCOP & European net killed 1150, something real weak on 950, then OC strong. I tuned back ten minutes later & there was WPEB blasting in; no Specials. 1400 was hopeless, w/WJET on top most of the time. 73.

James Neff - 90 Childs Street - Springville, New York

I must apologize for not Musing since last season but better late than never. Not too much activity until just recently, the reason being that I'm taking four day courses, & two night courses this semester. I expect to increase DXing activity especially w/a new loop I've just finished. I have one problem, the loop is at school in Buffalo & I can't get it home as it's too big to fit in my corvair. I lost a kind & generous friend in Pop Edge but am thankful that I knew him. May he Rest in Peace. Current DX. Specials were heard from WNIA-1230 KNWS-1090 & the listed TESTs from WTMB1460 & WSLT-1520. All were heard w/very good signals. Randy Kane: Your 950 station is KIMN, heard here on MM 11/22 @ 4:03am s/ff. WCDL-1440 ET on 11/22 @ 4:45. Foreign DX: YSS-655 on 9/1 at 9:45pm for country #18, Radio Barbados-785 on 10/31 6:30-7:20pm for country #19, HJAT-1100 Radio Reloj on MM 11/15 @ 2430 for Colombian #5. Country #20 turned up w/BBC-1295 @ 1:35-2:05, & BBC-1457 @ 2:06-2:27, both on MM 11/15. Bermuda #2 in ZEM1 3-3:30. Veries include: WNIA-1230 KNWS-1090 WKAP-1320 WHOT-1330 WHVR-1280 & KORL-650 for first Oceania (country #13), Radio Senegal-764 for country #14, Belize-834 for #15 & YSS-655 for country #16. I am now 10/20 in foreign countries DX. Several new veries have raised my total on SW to 111 countries verified. Will close w thanks to Ernie Cooper for the card, & best DX to all.

Sorry I haven't written in for so long. I got a promotion at work to Chem. Lab. Tech. as well as maintaining my old job of photo-etching lab technician. I may brag- the only photo-etcher in all United Aircraft. Only DX 11/22, I received v/1 from - hang on - KAPT-1220 Salem for State #4 verified. I work 15 hours a day, saving for my marriage. I'll write when I do DX. 73. (Congrats in advance. Ron! -RMC)

Hello again. The DX has been just great around here lately & I thought I'd better get a report in before I get behind. If the CX this month (Nov.) are any indication of what's to come, it looks like we're in for another real good DX season. I've already logged 22 new stations during the first 26 days of this month while last year I had only three new ones for the whole month. I haven't done a great deal of DXing so I think the CX must be better. Anyway, the DX since last report looks like this: 10/24- WTIK-690 La. @ 11:47pm as CBF was off. 10/25- Radio Free Dixie-690 @ 12:03am & KFLP-920 Tex @ 1:08am. 10/26- WGOH-1370 Ky. 5:58pm s/off & WHBL-1330 Wis. @ 6:13pm. 10/27- WGTO-540 Fla. 6pm s/off & WSAO-1550 Miss. way o/CBE 6:18-6:21pm. 10/28- CBI-1140 N.S. 4:07pm o/WVRA, & WVOB-1520 Md. 5:21pm. 10/30- KKJO-1550 Mo. @ 6:29pm. 11/1- CBLG-1090 Ont 3am while trying for KNWS; KNWS-1090 TEST in well 3:06-3:34, WPMB-1500 Ill. @ 3:42pm sounding like they were signing on & WFKN-1220 TEST in good 3:45-4:15. 11/6- WKCW-1420 Va. 4:57pm s/off & WKID-1580 Ill. 5:46 s/off. 11/11- WIKI-1410 Va. @ 4:58pm s/off. 11/12- WDEL-1150 6:02pm. 11/20- WHLN-1410 Ky. 5:25pm & KWAM-990 Tenn. in like a ton of bricks 5:46-5:59pm s/off. CBF was coming in so loud & clearly at about 5:35 but just 11 minutes later KWAM was so loud I couldn't even hear CBF in back! I still find it hard to believe a station I had never heard before would come in so well. They were tops on 990 for the whole 13 minutes I was able to listen. 11/21- WACB-1380 Pa. 4:59pm s/off, WGET-1320 Pa. 4:59pm, & WKIC-1390 Ky. 5:30pm s/off. 11/23- WLEJ-1410 Ky. 5:15pm, WCGO-1600 Ill. 5:28pm s/off, WJPS-1330 Ind. @ 5:35pm, & WOKZ-1570 Ill. 5:46 s/off. 11/24- WSAZ-920 W.Va. 4:51pm, WELK-1010 5pm s/off. WCLE-1570 Tenn. 5:30 s/off, WSLI-930 Miss. 6:04pm. 11/25- WCNT-1210 Ill. 5:36pm. Totals now up to 1082/104. Veries are starting to come in for a charge & the most recent ones are: v/l- WCLS-1580 WANN-1190 WJRZ-970 WMID-1340 CJCH-920 WWBZ-1360. v/q- WNAX-570 WHO-1040 KNWS-1090. v/c- KXOK-630. Also one from WTIK-690 w/"confirmed" typed on a Cn. Reports are still out to WWHG-1320 WFKN 1220 KWAM-990 CJSP-710 & WGRP-940. A very belated thanks to Willis Lewis for the card telling me WLAQ was my White Sox net station on 1410. Also thanks to Mike Silvera for info in IDXD about what the SS was that ERC & others heard on MM 10/4. I just want to say I prefer the am-pm system. Also I'd like to see DXDD given a two page limit, as I find it very helpful. 73. (Thanks for pic, Jerry! -ERC)

I am reporting since I haven't done so since Jan. but have done no DXing this season. Domestic additions to my log early this year were WGOH-1490 WIPS-1250 WPON-1450 CJCH-920 CFBC-930 WRCH-910 WEBO-1330 WCGR-1550 WELV-1370. Casual additions this Fall are WFIF-1500 WKYC-1100 WSLR-1350 CHYM-1490. The 1964-5 season was good for foreign reception w/new countries in Wales, W. Germany & Senegal, all verified. Also added Radio Caroline & Nancy. Monte Carlo reported but not verified. Totals veries in '65 are 30 w/11 outstanding including three of the recent group. The radio is being tuned up, so I may get started again. I was delayed by a late sailing season in which one of my sons won the L.I. Sound Jr. sailing championship & finished 5th in the NAs & then got tied up watching FB until my second son broke an arm on a punt return for his Freshman team.

Roy H. Mular - Box 6 - Marysville, Washington - 98270

Hello! The DX tale domestic-wise reads: 11/19- KZOO-1210 Honolulu s/on 10am for a very welcome logging, as 1210 a rough channel to DX due to AN CW signal thereon. 11/20-KPUA-970 Hilo, ex-KHBC @ 4am. 11/21- WTMB-1460 DX very weak, but loggable 3:04-3:15am. 11/22- CKBB-950 DX logged only at s/on, 4:15am, no sign of KMER's TEST, just a lot of JOKR QRM. KTYM-1460 "junk" blocked any chance at season's most wanted DX, WFBA. Couldn't someone protest to the FCC? I suspect this was BD's gal DJ on 1460 on 11/1 as sounds like KTYM. 11/26- WFGW-1010 Black Mountain, N.C. ID as ET @ 4:01 & 4:33am w/TT between those times. Veries: KGHO-1560 who say AN on FM 103.9 - I've been pushing this idea off AN-FM when I felt warranted, rather than AM - hope it catches on! WSLR-1350 & KDKO-1510. Re Bob Schwartz' idea in 11/20 Musings of checking out an SW frequency to ID a BCB station, I for one don't feel this is quite "Hoyle"; too much temptation to actually log the SW outlet if it appears to be parallel to a wanted BCB station! Everyone to his own code of ethics, but I just don't want to play ball that way. I can hardly do that type of thing when I'm DXing by tape, can I? Maybe that's why I'm prejudiced! Randy S., I wasn't picking on you at all when I questioned some of the IDs in IDXD at random times; actually I hadn't thought about this parallel programming situation, but you know, others than NHK do so program, so isn't it possible that parallel programming might appear on two or more channels from more than one source? Also I probably shouldn't assume others are as ignorant of Oriental languages as I, hi! Disappointed the 843 Oriental appears to be Chinese; fear all too many of these relatively new TP splits are going to prove out as mainland China or N. Korea. By the way, the per99d of 11/18-23 saw at least one new logging on each of the successive six mornings; can't remember this happening to me in recent history! In fact, w/the above WFGW logging, I had added mine new stations in nine days (both foreign & domestic included), so I feel quite $\frac{1}{4}$ lucky - now, bring on the veries! 73.

Veries have arrived at this den, but not many. KNWS-1090-TEST WIOI-1010 w/CM, KWIZ-1480 DDR-1043, real nice v/q for country #30, KYND-1580 & KDKO-1510-DX w/CM. DX has been fairly good in past two weeks. 11/14- It looked like a good TA night as RNE-584-583-727 were coming in around 11:30pm. VOA-1196 also quite clear @ 11:35, w/some interference from TICA. Then from 11:45 to 12:01 s/off I wrote down JBC's 700 & 750. 11/15 WABJ-1490 r/c 12205am. Unn WSAW-1470 s/off 12:07. RTFs 1205 & 1554 were in/out around 12:10. UnID SSB-1480 12:10am, wmo? SS-1005 12:20-12:25. WSIZ-1380 2:50am said r/c. WPOP-1410 noted u/WING 2:52am. KDON 2:55am s/off. Then tried KBRV TEST. I don't know if I had 'em or not but it sounded like I was getting two different stations u/CBK. I also had a weak TT for a while about 3:10-3:15. WFBS-1450 3:35 concluding ET. KRKO-1380 weak u/WBNX 3:38. WBIR-1240 r/c. Later in day KJPW-1390 5:59pm s/off. KEVL-1590 5:15 s/off. UnID SSB-910 11:08pm, probably WPRP, anybody know for sure? 11/21- WTMB-1460-TEST quite clear 3:01-3:45am. I hope you all got them. Finally WOOK-1340 3:07am. WLAV-1340 3:45, must be AN. Later, WLUX-1550 6:15pm s/off. 11/22- Weak TT-1150 3:10-3:30am, maybe KPLS, but so much interference from WCOP ET I couldn't get ID. WSLT-1520 TEST real easy 3:15-4:30. Finally KTYM-1460 3:35-4:30am. KPRO-1440 quite clear u/unID TT for a new one @ 3:53. CKBB-950 4am ID but not as clear as I expected they'd be. No CKCB or KMER. WFBA-1460-DX for a few minutes 4:13-4:17 but had much QRM from KTYM. 11/25- WAAG-1470 1:01 ID on ET. No WFKY heard here inbig 1490 jumble. Unn WMGO-1370 had ET @ 1:33. Later, WHBN-1420 5:30pm s/off. WFUL-1270 5:44 s/off. WGVM-1260 5:59 s/off. Unn WCOA-1370 really booming in o/WSPD 6:35pm. UnID SSB-1530 6:44pm, probably KCLR. 11/27- Unk SS-695 2am. Finally KNEW-1480 2:15am. BBC-1457-1088-903-1151 latter new in 2:15-2:45 u/all the static. Later, Portugal-665-755 clearest ever received, 5:30pm. 854 Romania 5:45pm for new country. 11/28- WAQI-1220 5:45pm s/off. Also KLPE-1220 5:45 s/off. Possibly Radio London-1133 6:55pm. KVSA-1220 5:58pm s/off. KTXO-1500 6:30pm s/off. I hope to get KASK & KACY tonight but probably won't. That's it for now.

John Draut - 210 West 251 Street - New York, New York - 10471

It was real nice meeting you & other members at the "Clambak3" on Sat. DX has been OK but the HNL is very bad which doesn't help. 11/21 logged WTMB-1460 in w/good signals. No sign of WKSX. 11/22- WCOP-1150 3-3:15 w/good signals & HNL; WSLT-1520 TEST in good; KIMN-950 3:33-3:55 weak but readable. No sign of CKBB/CKCB KMER KPLS WFBA. Rats! Veries from KDKO (don't take it too hard Joe Fela, hi) WMMJ WHDH CKCY. Perry Winkel in Frostbite Falls sounds like a reject from the Bullwinkle Show, hi! Ernie watch out, the Bid of Paradise may fly up your nose, so keep your knees loose & remember "Excelsior". 73s & C U in 7 - you too Joe, hi.

Joe Fela - 167 Goodwin Avenue - Newark, New Jersey - 07112

Veries since my last report are v/l's from KAPT-1220 f/up & WFKN-1220-TEST, a v/f from WMMJ-1300 & v/q KNWS-1090. Fifteen reports out for this season right now so I should be getting some more answers soon. (Ha! -ERC) Recent DX: 11/1- 2:43am, WRDW-1480 ending ET/M; 2:52 KNBR-680 o/WCEM; 2:59 WOND-400 ET/TT/M; 3:06 KNWS-1090 TEST kind of weak; 3:37 CBC-1190 weak, guess CBNC; 3:45 CJLX-800 unnn; 3:48 WFKN-1220-TEST in well, 4am s/ on on 1440 sounded like WBAB(?) too weak for WAOK & coming in from the wrong direction. 11/8- 4:33am, WRSJ-1560 just after s/on; 4:41 WPHN-1560 r/c; 4:53 WBBF-950 extremely strong; 4:59 s/on WMNC-1430 & saying 5kw. now; 5am s/ons WBIG-1470 & WRAD-1460, 5:01 s/ on WAAB-1440; 5:02 s/on WTTR-1470; 5:30pm s/off WMTC-730, SM s/on is still noon, hi! 11/7- 4:40pm, WTUX-1290 noted; 5pm s/c f WHUN-1150; 5:01 s/off CHFI-1540; 5:06 CKSM-1220 atop all; 5:18 CKBW-1000 weak but there, 5:25 CBC-990 // -CBM-940, either CBY or a LPRT I guess, but couldn't get any ID. 11/8- 2:30am KFJZ-GJGB-1270 both strong; 2:46 WSOC-930 w/WPAT off; no KDEO DX here, something there but too far u/HNL. 5:45pm, WAAY-1550 seemed to go DA @ 5:47; 5:55 CJCH-920 atop all, odd at that hour. 11/13- 12:04am, WMMJ-1300 PoP about equal to WFER here; 12:22 990 all CBW/WNOX, no WIBG. 1:15, noted WEZY-1350 w/WAVY no longer AN but unnn; 4:41-4:54pm s/off Vatican-1529 a real good S-7 & they have never been heard before or since; 4:59 s/off WXVA-1550, 5pm s/off CHFI-1540, still saying 680 soon & AN. 5:21, WKLO-1080 u/WTIC; 5:30 BBC-747 S-6; 5:32 WXTR-550 atop all & they're making it down here days now; 5:39 CHOW-1470 atop all; 5:43 s/off WAXX-1150; 5:56 KPCA-1580 noted, unnn; 6:01 s/off on 1550, I think WMOO, 6:10 CJNR-730 u/CKAC, seems to be common around this hour. 11/14- 4:57pm Va/W.Va station on 790, WSIG? 4:59 s/off WPIC-790 & WSVS-800; 5:00 WX-800 for Ont. NOT CKLW - who would be more likely, CJBQ or CFOB? (CJBQ's much nearer- ERC) 5:16 s/off WOAY-860. More next week. Note, SM s/on WWSR-1420 @ 6am is easy. Also got the BAD NESS WNJR-1430 will go AN after 1/1. I'll try to find out if they'll have a silent period. 73.

I am still alive, as Chris Lucas will attest. We had a good time at Chris' on 11/26. Mike Bugaj I went for a trip to Fairfield & we visited WICC's studios & XR. The engineer down at the XR, when told about the NRC, remarked, "Oh, you fellows are the ones who always ask us to get off the air MMs." Well, we're known for something anyway, latest loggings are as follows: 11/1- KNWS/WFKN both came in fairly well. 11/5 PM was very good for TAS, w/several new ones logged. MM 11/8- KWIZ-1480 @ 2:55am, KDEO-1510- DX good from about 3:30-3:45, verie already back. 11/11- No sign of DX from WNXT. 11/14- WDCR-1340 @ 6:26am, long wanted here; WIRY-1340 @ 6:45am. MM 11/15- VOA-960 2:30am s/off, WDMT-1480 lis that the call, Ernie - No, WGNZ -ERC) ET @ 2:52, real clear, WHIH-1400 @ 2:56am ending ET, WMTS-810 @ 5:15pm, real good rr u/WGY. 11/21-SM- Both TESTs, WTMB & WKSJ came through, although I heard only a CW ID from WKSJ. WDEA-1370 @ 6:30am another long-wanted one, thanks to Ernie's tip. 11/22-MM- Only TESTs to make it were WSLT & WFBA. WCOP AN or testing on 1150 killed KPLS, KMER/CKBB ruined by WPEN ET, and CKCB hopeless. A real washout of a MM. I worked all day 11/27 rebuilding the loop, & now it works better than before. Anybody having trouble, please note the crossmeans should be 68" long, not 58" as in the plans. I can now null every station except WCNX-1150. WHN-1050 yields all day to WYBG??, rr. Using new loop, the following were heard 11/27- CKCN-560-FF 5:45pm, CKAR-630 6pm, also noted CJNR-730 coming in well u/CKAC. That's loggings this time. I have entered Letterama (ha ha) & I have a grand total of 0. I am still working on it, as you can see. Also no sign of KBRV-540 TEST, one I really wanted. Does anyone know who s/off on 1490 at midnight on 11/26 & then tested w/CW & TT? Who s/off 1480 @ 5:45pm on 11/25? Who s/off 5:45 on 1500 11/15, w, 500w. Anyone in E know any s/off times for 1490s going off at 11:15, 11:30 & 11:45pm? I had about five s/offs but couldn't ID them. Bill Bens, your tape on the way - patience. So long till next week. Let's Muse fellows- that's the way Ray would have wanted it - do it in his memory. 73s.

Since joining NRC in Jan. I have reported only twice so I think I had better report again. Since this new DX season began I have been doing pretty well & I will list only some of the good ones rather than go into all my DX since Jan. 11/1- KNWS-1090-TEST in good but a lot of static that MM. WPMB-1500 3:40 w/some guy saying "Good Morning" over & over. WEKN-1220 in easy & to top off a good morning the r/c of WCLO-1230 w/an ID at 2:10, 2:15, 2:20. 11/8- WACO-1460 1:30am s/off, KLEO-1480 w/ID @ 1:50, no TT or anything, just an ID. Then the r/c of KFBB-1310 @ 2:09 ID w/TT, Mont. #4 (KXLF KGHK KSEN). Then I tuned for the KDKO DX but someone messed the frequency pp w/an OC so I got my Q-Multiplier working & it wasn't until 4:35 that I got a decent ID. My tape recorder picked it up fine. It was very weak but I was just glad it came in. WKMF-1470 was also heard on 11/8 @ 4:40. Does anyone know of KLCN-910 s/off @ 6pm in Nov.? Sounded like KLCN on 11/8. 11/15- KLOL-1530 heard testing @ 1:21. They mentioned they had been on for the past 15 minutes. WPRW-1460 TT heard @ 1:30 w/mx, rr type. Then on 1460 a guy w/EE accent said it was 1:50am when it was only 1:50 here. He mentioned BBC a few times but no location. Anyone know who, what & where it is? WMAJ-1450 s/off 2:06 after NBC NX. Later on I finally got the KPIK-1580 s/off after reading so much about it from others. This was at 6:45pm & to top it off I heard the s/off of KYND-1580 @ 7:3pm at a good level. Both were picked up on the taperecorder as I heard them. 11/16- CKSO-790 heard RS @ 5:35pm. 11/20, the r/c of WAXK-1320 finally heard after many tries. No go on KMER WFBA KPLS or the Canadians. I hope for KACY & KASK. See you soon

I greatly enjoyed attending the NRC get-together in Brooklyn 11/27 - it was nice meeting the many new young DXers - that proves our hobby is a "live" thing. I'm delighted in receipt of a veri from KMER-950 Kemmerer, Wyo. in reply to my tentative report on their 11/22 TEST, when I heard a guitar solo @ 4:27 in the background of CKBB, Barrie, Ont. Bruce Hymas, Mgr., said "At the time you specified we played a Billy Vaughn record, that contained a guitar solo, so I'm sure it was KMER you heard." Both CKBB & KMER were very weak. The only other recent verie is an attractive letter from WGNE-1480, Panama City Beach for its r/c 11/15 2-3am. Anybody needing it better try soon, as same channeled local WHOM is soon to go AN.

Robert H. Selleck - 366 Wormwood Road - Fairfield, Connecticut - 06432

Greetings from the Phantom Member! DX since 11/8: WBCB-1490 3:01am w. religious program. 11/10- WTLE-1310 @ 9:27pm rr u/CKOY. WEZE-1260 @ 9:31pm, rr, report out. 11/13- WASA-1330 @ 5:23am u/WPOW. 11/22- WSLT-TEST @ 3:11am, KOIL-1290 @ 3:24 u/WICE, WICE w/cl mx until 4am, then back to rr. WHKY-1290 s/on @ 4am w/c/w, report out. WHLL-1600 4:56 pm. 11/23- WTVN-610 @ 5:03pm u/WIP. 11/29- WJBK-1500 ET @ 3am, report opt. ZEM2-1340 3:29am u/WOOK r log, reports to both. Finally WAKE-1340 @ 3:06am & crummy Cuban on 670 probably CKKP. Noted 660 completely clear. It can't be my radio is that bad? Last note: I wonder if anybody would be kind enough to tell me the proper way to get a station to TEST for NRC? I could see possibility in WFIF, local, broadcasting for about six months. V/1 from WHLL. Enough gas. 73 & better DX than I'm having. (Robert, why not write to CPC Chairman Alan Merriman? -ERC)

Bob Ziel - 222-89 Braddock Avenue - Queens Village, L.I., New York

Not too much DX here lately due to mid-semester exams & term papers. I received one new verie recently, in the form of a v/q from KGBS-1020 for my first WC catch. They can be heard in the clear practically every MM after KDKA s/off. I had a great time at Ernie Cooper's get-together in Brooklyn on 11/27. It was a real pleasure meeting fellow NRCers, discussing DX & browsing through Ernie's fabulous verie collection. 73.

Duane Giese - 923 North Grant Avenue - Springfield, Missouri - 65802

I missed the 11/20 DX NEWS w/no Musing. I did type one for it but did not mail it on time so it didn't get there on time, I guess. I'm now starting my second year w/NRC, the finest Club ever. DX dropped off during the middle of Nov. but is picking up again. Heard are: 11/15- WINZ-940 3:51am, no sign of KBRV that AM, only CBK/WDAK. 11/21- I didn't try for WTMB because it is um or WKSX which is impossible due to the KICK. 11/22-MM- WIS-1480 1:04, KBRK-1430 ET 1:48-2. I heard WYOU-1550 testing again @ 2:26, this time alone. WSLT-1520 3:20 TEST good signal & heard them past 4am. WMCO-1280 3:46 ET. CKBB-950 4:15, just a fair signal. No sign of KMER did anyone hear them? EACT-1420 5:02. No sign of WHK. WBBB-920 5:35. Also no sign of KPLS, HNL was a little high. 11/27- KLIN-1400 ET @ 1:12am, KLEO-1480 2:31, WRR-1310 3:09. I guess I got all items listed that I wanted, so I better get it mailed right now before I forget again, hi. 73.

Stan Mores - Route 3 - Bradford, Massachusetts - 01832

11/22- RNE-773 like a ton of bricks, w/Radio 390 under, 390 best at 2am, but a half-hour preacher type show didn't help. WHK off AN this AM but WBSM still at it. WSLT-1520 Ocean City N.J. tough on a "clear" channel. 1520 is NOT a clear channel! Radio Caroline is there! And on top of WSLT at times. WKBW TT ~ 3:23-3:27 covering both. WFBA-1460 San Sebastian, P.R. about equal to the Dutch Dame - not heard till 4:13 ID. Then WPON on @ 4:30. WSLT still there @ 4:35. 11/23- Report to WKYC. 11/24- Brussels @ 4pm, 926 kc/s., still daylight, unm. S/off on 917 @ 5:30pm. I didn't recognize the Anthem or ID the language, so settled for a report to KYW. Verie, WMCS, very friendly letter from them w/full info on equipment - I heard test of 1kw. 11/26- SS on about 1225 w/lottery but couldn't pull an ID. 11/27- R.E.M.? Spain-1223 only ID I could get was Majadajonda Radifonico and REM & RNE both mentioned at 3:20. Had EE lessons, talk on care of teeth but could not pick out any commercials; faded out about 4am. 11/28- TT-1560 & garbled ID by woman at 5:42am but couldn't make it out. WRNY-1350 Rome N.Y. 5:55am s/on to 6:20 for annual report. WMTN-1300 s/on 6:30. CKBL-1250 Matane, Que. s/on 6:31. WRCH-910 copied for a report, 6:36-7am when WVTR hashed them up. I looked for WTID on 1270 but all WKYR here.

Dave Schmidt - 44 Green Lane - Green Ridge - Chester, Pennsylvania - 19014

Great news everyone, my dad just traded in our S-120 & threw in a little cash I got an HQ-180-C! That's the best thing that ever happened since I joined the NRC. Latest DX is fine. 11/21- Five reports out to WCRL-1290 f/c, WWHG-1320 s/off, WPTF-680, WDMA-1250 (get your verie yet, Ernie?) (Yes, Dave - in 1940! -ERC) WKAZ-950 just smashing WPEN just 12 miles away. 11/22- WSLT-1520 TEST heard 100% for one badly needed. 11/23, before leaving for school, KS00-1140 just smashing WRVA. 11/24- Home from school due to flu, got report to WRCP-1540. 11/25- WCHN-970 s/off. 11/28- WIRL-1290, WBCB-1490 (only 20 miles away & very weak) & WFRB-560 w/WFIL nulled out. Ben Dangerfield, your 1460 station was KTYM, Inglewood, Cal. on ET via Weinstein. Veries: WGNE-1480 & WPTF-680. CPC work, I contacted the following stations: WJAT-800 WGNE-1480 KDEY-1360 WRKL-910 WBTN-1370 & WCHE-1520. Nothing from anyone yet. 73s & good DX.

(no name) - 57-10 225 Street - Bayside, New York - 11064

W/the post-season exam work load slackening a bit, I got in some good DX: 11/18- WOL-1450 5pm; WDOV-1410 5:23 (finally worked Delaware!) 11/19- WDEE-1220, 2:45pm, WLAC-1510 4:50pm (never heard them this early before), WGCH-1490 5:12pm, WCMB-1460 5:32pm, WAWZ-1380 6:01pm. 11/20- Radio Americas (as usual) from 7:15 WJJD s/off on, & finally, after trying for them since July, KSL-1160, 11:55pm. Americas finally faded out enough for KSL, which aired the Brigham Young FB game. 11/21- SS on 1000 w/WCFL, typical LA mx through evening, first heard @ 8pm, possibly XEOY, or HRN - anyone know who? CBY-990, hockey @ 9pm, CMQ-640 (could somebody please tell me how to get behind CQ/CBN/& WHLO so I can finally pick up KFI? I've been trying for about five years!) 8pm on. MM 11/22- CFRB-1010 12:05am, WEEU-850 1am, gave up after that. I had an interesting surprise - received the 11/20 DX NEWS today, & saw on the IDX page a station from St. Georges on 535. Back on 9/13, I picked up a discussion in EE on that frequency, which ended w/light cl mx. The speakers had British accents. I thought at the time it was an image from WQXR, but apparently it was indeed the St. Georges station. I need a good outdoor antenna - any plans, suggestions? Reports to KSL WSUN WMAZ WDOV CBN WLOF, more in a few weeks. I was elated o/the performance of the Giants the other day. They can & will beat Chicago next week; Chicago's Sayers seems to be another Tim Brown, & this year the Giants have beaten Philadelphia twice. I hope the analogy stands up. Jets' Joe Namath also impressive. Have a Happy Thanksgiving. That's it, & 73s.

K N W S GOT 58 REPORTS ON TEST 11/1

Walt Rice, CE of KNWS-1090 informs me that he received 58 reports from 20 states and Canada. Since they don't have any secretary there, he said it would be impossible to read the names or persons who sent in the reports. He also said that he had a lot of fun and it was well worth it.

DAVE SCHMIDT.

Everything is included except one "second report" which will appear next week. We ask you please to try to be a bit more concise, especially for the in-between issues which are limited to 20 pages, like next week's. We did "consise up" some of the reports in this issue a bit to stay within our bounds even for this 30-page-limit issue, & we trust you'll not object to this. No "meat" was left out, you may be sure. ERC.

Ernest R. Cooper - 438 East 21 Street - Brooklyn, New York - 11226

A GREAT gathering on 11/27, w/19 NRCers present, according to my count, plus a couple of guests & a couple IRCA members who "liked what they saw" hi. Swell having all of you lads, believe me! And a great group they are, & makes us feel good about the so-called wild younger generation. No worries here! And then Saturday night, the nicest surprise imaginable when Ernie Wesolowski & all his other 14 DXers called me from Kansas City to say hello! What a nice gesture! You made me feel great, boys, and thanks so much for thinking so much! Now, let's dry our eyes, hi, & go on to DX. Ver-ies (3) this week: KDKO-v/f; Grenada-535 v/q (for 4/1 report!) & KGCL-1080, fine v/1. Count, 3,482. DX: 11/24- Radio Continental-955 again 11:53pm-s/off 11:59, Guatemala, reported. I have luck w/this country. Let's hope it holds. 11/25- Thanksgiving AM gave me Toulouse-944 12:23-1am; WJFC-1480 f/c-DT 2-2:09 disappearance u/WDAS/WLEE ANs, & VOA-1196 which oddly enough s/off @ 2:30am after news commentary w/Chet Huntley. I note Barbados-785 now leaves its OC on AN. 11/28- You're right, Joe Fela! It IS WBNX on 1180! Good IDing! 11/29- Fantastic AM for TAS - almost every nine kc/s. there was one - or more! At last, Radio Caroline South-1493 made it in, for report. Then I decided to look for Stockholm-773 w/WABC off, & instead, I got RNE-Valencia, w/EE u/them which turned out to be Radio 3-9-0, w/"World Tomorrow" religious talk 2-2:29, then pop. Unn WPAZ-1370 ET/M most all AM w/two under - CBC & something else, unID. "Radio Minute de la Hora"-1499 Barranquilla seperable from KSTP-1500 w/careful crystal tuning, for a report - tremendous signal they had, too! Who tested on 1090 w/Elvis records @ 3:43am? Oops - missed one from SM 11/28 - Looking around for TAS, I noted unn Horby-1178, so I tried for Falun-1223, & there they were o/u the new Spain station, for Sweden #2 here. I think I had my first DU 11/29, but WCBS-880 killed any chance by coming on OC 4:29am. Someone said they're the last local to come back on MME - not the last two weeks! Brazilian & an rr on 880 about S-4 until WCBS blew the do. No TESTs, 1510 had solid TT. Caroline was still an amazing S-8 @ 4:20am, so no KACY! Stan's right-1520 not clear!

Key to symbols -

T = Station checks with tone
M = Station checks with music
O = Station uses open carrier
C = Station IDs in Morse Code
L = Check is in last week of month.

+ = one hour earlier during DST

* = regular frequency check
n = station does not ID
S = Station checks in Standard Time during DST period.

RE: DST. ~~MM~~ Stations in those states observing DST generally change their frequency check times to fit DST. Thus, look for such stations to be on one hour EARLIER during the summer months.

A supplement to this list may appear in early 1966. Send any frequency check information to:

Joseph Fela, Jr.

Remember, to help other lists and supplements in the future, either send this info to me or contain it in your Musing or DXDD. Thnx!

CONDITION OF FREQUENCIES (all times EST)

Note: If you have any changes, deletions or additions to this list, please have them placed in the weekly "AN Situation" Column in the DX NEWS.

Some members have been dropped from the listing because their standings are not current. Two changes are being made in the standings. Count Canadian veries in the FOREIGN VERIE totals and in the NORTH AMERICAN totals. Would like to see all-time, all-location totals from you NRCers.

WHAT'S HEARD ...

- 575 NORTH KOREA. Pyongyang outlet noted with standard pips and tone 11/22 at 0400. (Seaver, Calif.)
- 584 AUSTRIA. Wien II mixed with Madrid after 2330 s/on 11/24, holding past 2400, but pretty spotty. (Dangerfield)
UNID. CRMGing Madrid (who is now AN) at 1955 same evening 11/24. (Dangerfield, Pa.)
- 625 COSTA RICA. TIRICA, La Voz de la Victor, San Jose. Have they raised power? Very strong 11/21 at 2330 to 0003 s/off. (Seaver, Calif.) Heard weakly 11/24 at 2213. (McIntire, Iowa)
- 640 CUBA. CMQ. Habana, heard 11/15 0519 with "un bolero." (Hathaway, Ill.)
UNID. Who is weaker Spanish-speaker under CMQ? Heard 2138 on 11/22. (Druhns, N.Y.) TGW? HJBJ? (Ed.)
- 645A UNID. Something here at 1630 with a play. Had a slight English accent. Carrier noted heterodying WSM/WHL0 as early as 1545, with audio coming in around 1615-1620. Anyone know who this is? (Schmidt, Pa.) BEC Third Programme? Antigua still here? (647/644) (Ed)
- 650 HAWAII. KORL, Honolulu. Tentative logging 11/8 with music programme, very weak around 0340-0407 with English announcements. (Calkin, N.B.)
- 654 UNID. S.S. Station here with "crude" modulation messing up WSM for the past 3 nights, and here again tonight at 1930. (Schmidt, Pa.) HIAF-653? YSS-655? (Ed.)
- 655 EL SALVADOR. YSS, R. Nacional, San Salvador, heard 11/24 with some WSM slop at 2135. (McIntire, Iowa)
NORTH KOREA. Pyongyang outlet. WSM alongside but weak. This TP with excellent signal on 11/21 from 0900 to 0800. Also have heard him a few times before. (Kaskey, Calif.)
- 665 LITHUANIA. Vilnius. Spotty report taken for reception between 2146 and 2308 11/28. Only occasionally up. At 2146, had woman talking; at 2226 classical piano; at 2249 almost Scandinavian type folk music (or European pop) with woman announcer, and from 2304 man and woman in Russian with "Govorit Moscvu" by woman at 2305, indicating that relay and local services have changed schedule from WRTVH-65. (Callarman, Texas)
- PORTUGAL. Lisbon now coming in like a local every evening, until 2000 s/off, after what seemed like several months of reduced power. (Dangerfield, Pa.)
- 675 NICARAGUA. YND, Union Radio, Managua. Please pardon mistake re 10/30 IDXD. I heard "(Union) Radio, Managua" and misunderstood. (Druhns, N.Y.) S'okay. (Ed.)
- 677 JORDAN. Jerusalem in with feeble signal on 11/23 around 2233-2245, but no log. (Dangerfield, Pa.)
- 683 SPAIN. R.N.E. Centro Emisor del Sur, Sevilla, high with Alborada musical 2305 11/16. (Wood, Ind.) Strong all evening 11/28 2141 to 11/29 0230 off and on, but unneeded. (Callarman, Texas) Now AN. (Dangerfield, Pa.)
- 690 CUBA. CMQC, Habana, noted 11/19 at 2335. R. Free Dixie wasn't present. There was a jammer here. Maybe Cuba is jamming themselves to increase propaganda value. (McIntire, Iowa)
- 695 MEXICO. XEN, Mexico, D.F. ID'd here 11/25 with strong signals. It's been a long time since they've been on this frequency, but apparently trying it again. Never verified, so reported. That address in WRH 65 looks faulty. Do you know if it's OK? (Freeman, Calif.) Noted here past 0100 11/29 with strong signal. (Callarman, Texas)
- 710 UNID. L.A. Heard 11/22 at 0515 under KMPC O.C. Cuban? (Seaver, Calif.)
- 728 E. GERMANY. Schwerin logged and reported for 2049 to 2103 reception 11/16. (Gustafson, Ill.)
- 730 MEXICO. XEX, Mexico, D.F. Heard very well on 11/7 at 0032. (McIntire, Iowa)
- 737 SPAIN. R.N.E., Barcelona. Heard here well 11/21 and 22 at about the same time, with best signals noted both nights at about 1820. How much power? (Druhns, N.Y.) Lists at 125/250 kw. (Ed.) Believed to be strong Spanish-speaker first noted 2345 11/28 and still in at 0230 11/29 bed time. Not enough patience to fight KRMG slopover when other stations were in. (Callarman, Texas) Now observed AN. (Dangerfield, Pa.)
- 746 HOLLAND. Hilversum is likely the station with O.C. 11/28 2322, variable tone modulation 2330 to 2331:35, and carrier still there 2346. They are known to TT. Tried to catch at s/on 0100 11/29, but while carrier was there, could get no modulation until I tuned back around 0120 with instrumental music. Faded at 0125½, but still detectable on and off. (Callarman, Texas)
HOLLAND/EAST GERMANY/UNID. Hilversum s/off 1800 on 11/9, leaving two carriers, Cottbus and one other. Perhaps Syria? Hilversum strong until s/off, then dominated by Cottbus. (Calkin, N.B.)
- 750 JAPAN. JOIB, Sapporo. Pretty sure this one is Japan. Very good signal if KFQB would disappear. 11/21, both these were sending fine signals. Usually get slop-over from KFMB and KCBS but 11/21 750 signals were too good. (Kaskey, Calif.)
- 755 RUMANIA. Timisoara. Noted here and reported for reception 2341 to 0041 11/1. (Gustafson, Ill.)
- SPAIN. R.N.E. Valencia. Noted 11/15 0225 to 0247. (Gustafson, Ill.) Heard with Zarzuela 1740 11/16. (Wood, Ind.) Spanish-speaker heard here after Cairo s/off at 1857 on 11/14. Sounded like trumpets at 1900 with woman announcer. Think it must be Valencia, as no other SS TA listed. (Robie, Mass.) Noted at readable level 0208 to 0215 11/29. Man had Spanish newscast til 0212 when "R.N.E." ID heard. (Callarman, Texas)
- 785 BARBADOS. Black Rock, noted 11/15 2101 giving announcement "The Voice of the Eastern Caribbean. (Hathaway)
- 799 NORTH KOREA. Pyongyang outlet noted 11/22 at 0350 parallel to 635. (Seaver, Calif.)

- *773 UNID. Station (s) around 1830 with music programme and non-English announcements. Other carrier behind with unreadable programme. Perhaps Sweden and Radio 390 respectively? This on 11/17, but heard almost daily. (Calkin, N.D.)
- 800 MEXICO. XELO, C, Juarez, Chih. Noted 11/9 at 2015. (Hathaway, Ill.)
NETH. ANTILLES. PJB, Donaire. Heard 11/9 at 1915. (Hathaway, Ill.)
- 820 COLOMBIA. HJED, La Voz del Rio Cauca, Cali. Noted 11/15 0525 with good Latin American music. (Hathaway)
- 827 BULGARIA. Sofia I. Reported for reception 2332 to 2347 11/16. (Gustafson, Ill.)
- 830 UNID. ORIENTAL. Heard on Sunday Morning 11/7 under WCCO; this is not the same one (I don't think) who is heard with fine signal at about 835. (Kaskey, Calif.) Most likely JOBB, Osaka. (Ed.)
- 835 CHINA. Re comment in 11/20 DXN, Roy Miller writes: "First, I like to call these provinces by what I believe is more common, Western name, i.e. Kiangsi or Kiangsu. Also, most will recognize Nanking rather than Nanchang, so ... Check out your comment as to location, believe you have the two reversed, with Nanking the most Easterly and thus likely to fade in first. What say?? I'm going to suggest reverse of your idea as possible... (Primarily because of earlier reported "fade-in" and the much stronger signals on 835) ... that 835 is Nanking, Kiangsu (ex 840, same as FDIS 820V) with 843 Nanchang, Kiangsi (also ex 840, with the two s shifting away from each other to avoid interference. Suppose we'll ever know for sure?? (Miller, Wash.) Right, re locations, Roy. (Ed.) UNID. ORIENTAL. Noted 11/7 with fine signal. (Kaskey, Calif.)
UNID. S.S. Faint 2313 11/28. Could not bring to readability, and audio only heard occasionally. Later, R.T.F. Nancy took over channel (836), but I had more exotic stuff to log. (Callarman, Texas)
- 836 LEBANON. Beirut heard 1815-1830 Arabic programme announcements and music 11/9. First Asian, and strong! (Calkin, N.D.)
- 840 JAPAN. Believe this one is Jap. Fair signal on 11/21 next to 835 station. (Kaskey, Calif.) JOGC, Niigata. (Ed.)
UNID. L.A. of 11/8, upon scrutiny of tape I have, I find uninterrupted music from 0054-0103 or so, short talk, no ID's heard, then more music, and another L.A. fade in around 0115. Nothing definite. I cut the tape at 0115 to go to bed that AM. Rats. (Seaver, Calif.)
- 843 UNID. ORIENTAL. All three of these (835-840-843) in on 11/21 (many whistles) but occasionally fairly easy to separate. (Kaskey, Calif.)
- 845 ITALY. R.A.I., Roma. The Night program was heard for the first time here off and on 11/28 between 2135 and 2236 for spotty report. Had much music, with breaks on the hour and half hour for three-minute capsule news reports in four languages, two at each break. English by woman at 2203 to 2206. Weak, and subject to heavy KOA sidewash. (Callarman, Texas)
- 850 ALASKA, UNID. Very good Oriental signal here, usually beaten by KICY but last week has been on top. 11/21, best of all TP's. KICY heard regularly 10/26 to 11/20 s/off at 0500. (Kaskey, Calif.)
- 863 FRANCE. R.T.F., Paris. Must have been the man in French 0058 11/29 at S-5 level. (Callarman, Texas)
- 870 UNID. Station heard here occasionally when WWL off. (Kaskey, Calif.)
- 890 ALGERIA. R. Algerie, Algiers. Found march tune here 0130:50 11/29, then s/on announcements by woman in French, very clear on tape for Algiers. Surprisingly, I was able to hold this one until past 0200 for excellent log of morning music show, including Latin American (I thought HJCE had scotched it), German-type, plus much French and American rock. Had Elvis Presley, Jerry Lee Lewis, plus "Itsy Bitsy Teenie Weenie Yellow Polka Dot Bikini" sung in French. Female announcer gave time checks between each record. Low-pitched heterodyne only sign of possibility of HJCE. Amazed at this logging! (Callarman, Texas)
UNID. Oriental. Definitely three stations on 890, 895 and 900. One gives CHML a bad time, the other WLS, w/ another in between better yet. (Kaskey, Calif.)
- 900 MEXICO. XEW, Mexico, D.F. Noted 11/15 at 2029. (Hathaway, Ill.)
- 908 ENGLAND. L.B.C., Dookmans Park. London Home Service. Very high at 0139 on 11/16 with Commodity prices, all down! (Wood, Ind.)
- 917 YUGOSLAVIA. Ljubljana, a fair signal at 0015 on 11/25, but faded shortly afterward. (Dangerfield, Pa.)
- 950 JAPAN. JOKR, Tokyo. Maybe. Heard 11/22 at 0400 while looking for KMER DX. Poor signal through heavy noise level that frequency. (Kaskey, Calif.) Must have been JOKR; heard here strong then. (Ed.)
- 955 BURMA. XZK, Rangoon. Yes, you're right about WRH starting Burmese transmission at 0600. I apparently made a mistake in my report; my notes say first reception 0236 PST, best at 0618-0659 EST. I gave up at 0412 PST, 0712 EST. Too sleepy when converting to EST. Correct reception overall 0536 to 0712. Add 1 1/2 hours to convert to Burmese time makes it 1706 to 1842 there. Playback of tapes, plus some erased for other recording, finds nothing usable. (Freeman, Calif.) I'll gladly check the language on tape, if sent. Re Schwartz' suggestion on checking SW parallel (6035), inexperienced SWL's should beware: dominant on 6035 is a Soviet station, listed as Tashkent, but thought to be Komsomolsk. May lead to confusion (especially if Tashkent, and in Asian language.) (Wood, Ind.)
- 965 NICARAGUA. YNLU, Radio Managua, Managua. Noted 11/19 1954 to 2016 when gave positive ID, "Radio Managua," advertises Mejoral, so you were right 10/6 issue. (Hathaway, Ill.)

December 4, 1965

- 967-970 UNID. Orientals. Two stations heard here 11/21. 970 station easily over KCHV, the other slopping into him, would guess about 967 kc. (Kaskey, Calif.) HICA-970? Nothing known on 967, but Yuzhno-Sakhalinsk is heard on 973. (Ed.)
- 970 HAWAII. KPUA, Honolulu, ID heard 11/20 at 0400; nothing else loggable. (Millar, Wash.)
- 989 WEST BERLIN. R.I.A.S., heard on 11/20 between 0005 and 0025 with local WIDG off the air. No log, no detail. (Dangerfield, Pa.)
- 1016 WEST GERMANY. S.W.F., Rheinsender, Mainz. Assumed to be the station in German 0116 11/29. Did not stay up long enough to log. Had North American standard instrumentals on this channel earlier (around 2138 and 2328 11/28), separable from Latin on 1015, but unable to hold long enough to identify. (Callarman, Texas)
- 1025 AUSTRIA. European with German-speaker heard evening of 11/24-25 2330 to 0002. Musical program preceded news. Fading bad. Must be Dobl or Kronstorf. (Freeman, Calif.) Dobl-Kronstorf synch. (OSL's as Linz on verie cards), heard with unusually strong signals 11/24, at 2330 s/on, when most Austrians were up strong. (Dangerfield, Pa.)
- 1034 UNID TA(s). 11/24 at 0005, one domina^{nk}. Some audio. 2nd a cyclic sort of het. Presume Portugal and Tallin. (Seaver, Calif.)
- 1035 HAITI. *VEF, Cap Haitien. At best level of season 11/25 2010 to 2030 s/off. Have not verified this call, so tried a report. (Freeman, Calif.) Heard well on CAR radio 11/19 at around 1900. (Druhns, N.Y.)
- 1040 UNID. Oriental. WHO receives the brunt of this one, sometimes covers him. (Kaskey, Calif.) Peking? (Ed.)
- 1045 UNID. L.A. Noted 11/15 with good L.A. music, announcements in Spanish; time given between songs; bad spill-over from WHO at times. (Hathaway, Ill.) Sounds like HOJ-2, Ondas del Conajagua, Las Tablas. (Ed.)
- 1050 MEXICO. XEG, Monterrey, N.L. heard 11/15 0548 in English. (Hathaway, Ill.)
- 1079 POLAND. Katowicz, seems to s/off nightly around 2000, tho I can't separate for a decent report. (Dangerfield)
- 1088 ENGLAND. B.D.C. Midland Home, Droitwich. Fine with weather (intense depression SE of British Isles) 0155 11/16. (Wood, Ind.)
- 1106 WEST GERMANY. A.F.N., Munich, noted with news 11/16 0200. (Wood, Ind.)
- 1120 VENEZUELA. YVMF, Maracaibo. Perfect ID 11/15 0544, often mentioned Caracas on program. (Hathaway, Ill.)
- 1125 COSTA RICA. TISR, R. Popular, San Jose. Found at good level, for fine log 2100 to 2130 11/28. Popular music, vocal and instrumental, in Spanish. Slogan and time check between each record. Only two commercials in entire period. (Callarman, Texas)
- 1133 INTL. WATERS(England). R. London with Top Pops, clear ID as "R. London 0205 11/16. Excellent strength. (Wood, Ind.) Noted with loud whistle between WRVA/WNEW as early as 1600 some nights, and audio noted around 1630. (Schmidt, Pa.) Strong and perfectly readable 11/17 0137-0200+ with hit music programme and time checks. Heard on HC-100 and only slight CRM from WNEW. (Calkin, N.E.)
- 1140 JAPAN. Possibly JOER heard 11/22 at 0308 and 0502. (Seaver, Calif.)
- 1187 HUNGARY. Szolnok, logged 2300 to 2320 11/16 for report. (Gustafson, Ill.)
- 1210 CHINA. IS as shown in 1965 WRTVH heard 11/23 at 1000; does ye Ed. "crystal ball" give any hint as to location? (Millar, Wash.) Setting the crystal ball atop my FBIS log, I find Peking and Shanghai, both local stations, listed here. (Ed.)
- 1250 AS. RUSSIA. R. Moscow Far East Service, Khabarovsk, heard over domestics 11/21 at 0440. (Seaver, Calif.) Heard with weak to fair signals from 1030 to about 1050 EST (when Hungary came on the air.) Was mixed with A.I.R., Sangli, which I had heard at 1010 EST already. (Bludorn, W. Germany)
- 1265A INTL. WATERS. Radio Tower. New pirate heard for the first time 11/22, from 1145-1230 EST, testing on approximately this channel. "This is Radio Tower." "Tower Radio! Tower Radio!" "This is 2-3-6 Calling!" (Bludorn, W. Germany)
- 1285 NORTH KOREA. Pyongyang outlet Possibly they with music 11/22 at 0450 down to 785 to check parallel and they were gone when I returned. (Seaver, Calif.)
- 1290 JAPAN? U.F.O. heard under KOIL and others 11/22 at 0455, might have been JOHR. (Seaver, Calif.)
- 1295 ISLE OF MAN. Manx Radio, Douglas. Heard for the first time 11/8 at 0800 EST. Weak. (Bludorn, W. Germany)
- 1322 EAST GERMANY. Dangerfield's T.A. is probably R. Moscow, Leipzig, E. Germany. Believe is in French, certainly a West European language at this time. (Wood, Ind.)
- 1349 FRANCE. R.T.F. Cynch. Reported for 11/15 reception 0107 to 0116. (Gustafson, Ill.) Strong het here 0226 11/28. (Callarman, Texas)
- 1353A INTL. WATERS (England). On 11/20, R. Essex remained on the air until 2155 EST, close down. Good signal, but not as strong as that of wonderful Radio London and that of the Carolines. Is obviously using lower power than those. (Bludorn, W. Germany)
- 1367 PORTUGAL. Porto, logged 0218 to 0233 11/1. (Gustafson, Ill.)
- 1394 AZORES. CSB-80 heard 1800 to 1840 on 11/3, for report. (Gustafson, Ill.)
- 1403 FRANCE. R.T.F. Synch net. noted 0207 to 0217 11/15 for report. (Gustafson, Ill.) S-6 carrier here 0225 11/28 but 1400 sidewash too strong for log. (Callarman, Texas)

December 4, 1965

- 1412 UNID. T.A. Heard 11/1 at 1951 to 1958. Not sure, but I believe he was a Spaniard... but who? (Gustafson, Ill.)
- 1415 MALI. R. Damako, was heard for second report 11/1 0108 to 0137. Now on 1428. (Gustafson, Ill.)
- 1428 MALI. R. Damako, Carl Parsons called to tell me that, per his recent verie letter, this station was using this new frequency. I looked on the A.M. of 11/25, and darned if they weren't! Heard with very weak and rough signal, 0100 to just past 0130. My report still unanswered. (Dangerfield, Pa.)
- 1457 ENGLAND. D.B.C. West Regional, Clevedon. Weather 11/16 0155. (Wood, Ind.)
- 1460 PUERTO RICO. WFEA, San Sebastian, logged with good signal at times on DX special MM 11/22, 0411 to 0428. I ID'ed four U.S. pop standards, so it pays to be "square." (Dangerfield, Pa.) Logged on 11/22 DX from 0409 SSB s/on to 0417 CSE under local CRN. Programming in both English and Spanish. Rough copy here due to local CRN. (Rugg, Que.)
- 1475 DAHOMY. Cotonou. Bits from this one heard through Vienna 11/2 at 0053. Nov. 1st through the third were real good for West Africans. (Gustafson, Ill.)
- 1502 POLAND. Polskie Radio, (transmitter at Poznan?) on top 0050 11/16 w. Prasa Polska (Polish press review). Took me by surprise, so strong. (Wood, Ind.) EBU and FBIS both say Warsaw, with FBIS listing transmitter location of Mokotow. (Ed.)
- 1520 INTL. WATERS (Isle of Man). R. Caroline noted around 0930 after WKW's OC with good music and very fast fading signal on MM 11/15. (Schmidt, Pa.)
- 1523-5A CHINA. R. Peking Russian Programs, heard formerly on 1516 kc, now here. Ken Brownless' loop shows that signals come from the East, so most likely the transmitter location is not Albania, but Western China! If so, at least 1,000 kw, I guess... (Bludorn, W. Germany)
- 1546 ENGLAND/UKRAINE. Classical music 11/21 with Russian s/on with IS underneath at 1600. Presume classical music to be D.B.C. network as language was English, although got no positive ID; Russian is probably Vinnitsa, Ukraine, whose programme continued with news and talks, until 1630 when signal gone, yet LBC remains. Is this Vinnitsa? Or another? Help! (Calkin, N.B.) FBIS & EBU say Vinnitsa. (Ed.)
- 1560 UNID. S.S. At 11/15 0525 hard copy till WQXR open carrier came on and then heard good advertisements for Rias Menthol and Super Shell premium, but no ID. (Hathaway, Ill.) WRSJ, San Juan, P.R.? (Ed.)
- 1580 MEXICO. XEDM, Hermosillo, Son. noted 11/15 MM ... only thing around except for U.S. tester. Heard 0145. (McIntire, Iowa)
- 1594 UNID. T.A. Mystery station, whose signal is weaker than the Portugal station, is heard between 2000 and 2100. This one may be Madeira, but not sure. Anybody else hearing this one? (Gustafson, Ill.)

VERIFICATIONS ...

- 705 ST. VINCENT. W.I.B.S. Card received from St. Georges, confirming both St. George's, GRENADA, and Kingstown, St. Vincent, on 11/13/64. They must be catching up on overdue mail, as I have long since verified these on subsequent reports. New card has been printed on which are also listed stations at Melville Hall, DOMINICA and Chateaublair, ST. VINCENT, with 25 watts each. Go get 'em gang! (Robie, Mass.) What freq. (Ed.)
- 809 SCOTLAND. Westerglen-Burghhead transmitters sent letter airmail from Glasgow for 11/9 reception. Country #50. (Calkin, N.B.)
- 827 BULGARIA. Sofia I sent card (same as SW) for 10/18 reception seammil. Country #48. (Calkin, N.B.)
- 989 WEST BERLIN. R.I.A.S., Sent a card with picture of studio building, schedule for month of November, and a pamphlet with a lot of propaganda. They use 300 kw. (Gustafson, Ill.)
- 1034 PORTUGAL. CSE-2 sent card for 10/17 reception airmail. (Calkin, N.B.)
- 1178 RYUKYU IS. V.O.A. Okinawa. Sent card signed by Francis Hammond. (Gustafson, Ill.)
- 1415 MALI. R. Damako. Verified reception of 9/13, with statement that when I heard them, their crystal was bad. Eventually, they'll move back to 1430, but they said their frequency now is 1428. So if you want 'em, better get them before they move back. They use 60 kw. S/on time Monday through Friday is 0100 and s/off daily is 1800. (Gustafson, Ill.) Their very attractive brown and yellow QSL card with map of Africa received for September 6th reception. Very specific verification with much info contained thereon. Said they have been off frequency with a bad crystal. Want reports. Reported when on 1415.5 kos. Now on 1428. (Robie, Mass.)
- 1493 INTL. WATERS (England). R. Caroline South sent letter/card for 1493 reception airmail in 20 days. (Calkin)
- 1578 PORTUGAL. CSE-5 sent letter seammil in Portuguese for 10/13 reception. Took 1 month. (Calkin, N.B.)

DOMINICAN REPUBLIC stations have been noted using GMT -4½ hours (EST +½ hr.) recently. (SCDX #837)

Rolf Bludorn writes: "I heard for the first time a U.S. West Coast station on 10/10: KING-1090, Seattle, Wash. from 2205 to 2230 EST, most of the time WEAL! I wondered if anybody in Washington, e.g. Roy Miller, heard a German station that night. And I now find in IDXD, 10/23, Roy Miller did in fact hear his first T.A. of the season that night: Dresden-1043, East Germany, on 10/10 2200-2230 EST...!!!"

CHILEAN FREQUENCY AND CALL ALLOCATIONS

By Ronald F. Schatz

The seven international frequencies assigned by treaty for the exclusive use of Chile are 570, 660, 760, 1060, 1140, 1380 and 1500 kc/s. All stations operating on these frequencies are located in the capital - Santiago.

Chilean callsigns are unique. They consist of the prefixes CA, CB, CC or CD followed by the station's frequency in 10's of Kilocycles; e.g., CB114 in Santiago, according to its call, operates on 1140 kc., and CD57 on 570 kc., etc.

Each callsign prefix is assigned to one of four regions of the country as follows:

CA	Norte	Northern border south to Coquimbo Province
CB	Centro	Aconcagua Province south to Santiago Province
CC	Sur	O'Higgins Province south to Concepcion & Nuble Provinces.
CD	Antartida	Arauco & Bio-Bio provinces south to Tierra del Fuego.

Using an example of the above information, station CB73, solely according to its callsign, is located in the "Centro" region of Chile and operates on 730 kc.

Next time: Uruguay!

acknowledgements...

I haven't found space for 'em ... but will try to make space! I encourage each of you to describe your receiver and antenna set-up to me ... once should be enough if I card-file it right ... and I'll include this information with the acknowledgement. I'm listing a few I can recall off the top of my head.

Thank you gentlemen, for a nice showing.

30 pages this time, gentlemen! And I am going to have to carry over two pages of the Conditions of Frequency List plus five pages of an interesting article by Gordon Nelson. This material is already run off and will be included as soon as space permits.

HOLIDAY SCHEDULE

It has been our practice for the past several years to advance the deadlines one day for the bulletins during the holiday season because of a slow-down in the mails. We will again ask you to observe MONDAY deadlines for the bulletins of Dec. 25th and Jan. 1st. In other words, have your reports in Brooklyn, Pampa, and Punxsutawney on Monday, Dec. 20th and Monday, Dec. 27th.

STUDENTS

We will be happy to send "DX News" to your home address if you are going home for the holidays. Just send us a postal card, and be sure to specify which issues you desire mailed to your home QRA. To save us time, please include your home QRA.

NEW MEMBERS

We have several new members to acknowledge. Space does not permit us to list them in this issue. Be sure to welcome these new members with a card or letter and urge their participation in club activities.

DX CALENDAR

Be sure to tune in as many of the DX specials as you can and send the stations good reports. A card of thanks when you cannot hear a station is good insurance for a DX calendar in future years.

December 4, 1965

This page was reserved for the Verie Signer List, but our editor Russ Edmunds must be suffering another attack of the "kissing disease" since his stencil did not get here. We'll use the page to run through our MAIL BAG.

MISS JANETTE EDGE asks us to pass along her sincere thanks to the many members who sent expressions of sympathy. She is most grateful. Janette has moved to an apartment at 156 Suffolk Ave., Buffalo, N. Y. 14215 and will continue to forward us the mail addressed to NRC at Buffalo.

Sp-5 JAMES A. LEE, U. S. ARMY PROP. STATION, FPO SEATTLE, WASH. 98791 writes: "We will be closing the station at the end of December and I will be returning to New Jersey in January or February 1966. We had our first snowfall Nov. 23rd and have had 100 knots winds (willowaws) for the last two weeks; also two or three earthquakes a week." (Jim is stationed in ADAK, ALASKA).

RICH HEALD, P. O. BOX 1576, SITKA, ALASKA 99835 has rejoined the club and is now located in the Far North. Ket's have your musings often, Rich.

DON ALLEN, 810 HOOPES STREET, ARVIDA, QUEBEC writes that CBJ 1580 Chicoutimi, Que. will dedicate a one-hour portion of a subsequent test program to the NRC. More details will be published later. J. E. Roberts, Chief Engineer, the senior member of the CBJ staff has been there since 1933. This promises to be an interesting program with a history of the station, etc.

GEOFFREY A. TROWER, LEWES HOUSE, NATAL ROAD, BRIGHTON 7, SUSSEX, ENGLAND signifies his intentions of joining our club. Mr. Trower is a friend of our member Al Slater and has been DXing since 1953 when he first heard WINS. (I'll get details about a remittance from the local bank and write you in a few days, Geoff.)

ROLF BLODORN, 6301 ALLENDORF, POSTFACH 26, WEST GERMANY sends his dues for another year and writes a most interesting letter. "Over here we had a very early start of winter. Already on November 12 we had the season's first snow, and it has been snowing almost every other day during the last two weeks. In mid November night-frost up to minus ten degrees Centigrade, in northern Germany and Berlin even down to minus 23 degrees. DX-wise the NA 50kw East Coasters, along with some lower power like WEZE 1260 kc Boston, CJCB 1270 Sydney, are predominant again almost every night. On some nights the midwest was open with WLS Chicago 890 kc, WCFL Chicago on 1000 kc (atop CKBW on Oct. 21). KMOX 1120 St. Louis, and WOWO 1190 Ft. Wayne being heard here. As the the Pennsylvania stations WCAU 1210 is one of the most regular TAs over here. KDKA 1020 is usually heard only when the midwest is open. On Oct. 10 I heard a West Coaster for the first time! From 2205-2230 I heard KING Seattle, Wash. on 1090, being atop WBAL most of the time. And recently I read in IDXD that Roy Millar in Washington heard his first TA of the season on Oct. 10 too, being Dresden, East Germany on 1043 kc, the time 2200-2230 EST!!!

SPANISH REPORT FORMS The supply of Spanish report forms has been exhausted. More will be available at a later date and announcement will be made in "DX News". It will be probably two months before another supply will be available.

LETTERHEADS AND ENGLISH REPORT FORMS are available for 200 for \$2.25 postpaid. You may assort the order, but we must ask that the minimum order be for \$2.25. Postage is the big item with supplies. Also, we will repeat our previous offer to print 6our name and address free if you order 500 for \$5.25. If you prefer to get your printing done in your home town, we'll be glad to lend a mat of the club emblem.

Please note that Pages 2 and 4 of the Conditions of Frequency List will be mailed with a later bulletin. We do not have room to include it this week. Also Gordon Nelson's article will be included when space permits. Sorry I messed up one stencil this week (Bill Caldwell's report is messed up a bit). I experienced a little trouble with the mimeo machine but have it fixed again. There may be a few thumb and fingerprints onea few of the pages, please forgive me. Not much time for DX here...but I did get a verie this morning...letter from KAPT for last year's NRC DX TEST. Thanks for all the nice letters and good DX. 73 Dick Cooper
